HARDY LARGE FLOWERING CLEMATIS

Without doubt the most attractive and colorful flowering vines. Bloom profusely in early summer, followed by some blossoms throughout fall. The spectacular flowers add distinction and charm to any garden. Unequalled for porch, trellises, arbors, pergolas, posts and walls. Grows rapidly, producing an abundance of lush, green foliage. We offer four outstanding varieties:

JACKMANI. 1502. Large purple flowers. One of the loveliest and most popular. Very striking against the rich green foliage.

BARON VEILLARD. 1504. Lovely pink blooms flower profusely on this hardy climber.

MME. LE COULTRE. 1506. Glistening, pure white flowers are produced in lavish abundance on this strong, vigorous grower.

VILLE DE LYON. 1508. Showy red blooms. Provides a gorgeous display of color.

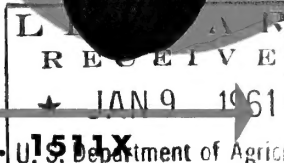

Heavy 2-yr.

COLORFUL — HYBRID FRENCH LILACS

No garden should be without some of these gorgeous French Lilacs. They bear immense flower panicles 8 to 12" long, thickly massed with single and double florets that are richly fragrant. Bushes are compact and shapely. Do not sucker. They are superb for lawn specimens, shrub borders and Lilac hedges.

CHARLES JOLLY. 1384. Double wine red.

PRESIDENT GREVY. 1380. Soft blue-violet.

MOUNT BLANC. 1386. Snow white.

MARECHAL LANNES. 1382. Rich pink.

Stevensville, Mich.

1961 SPRING GARDEN GUIDE

MAGNIFICENT HARDY HYBRID RHODODENDRONS

Unquestionably, the Rhododendron is one of our most elegant native plants. Always a thing of beauty — these new, hardy hybrids are truly magnificent, and perfectly adaptable for use in most sections if given reasonable care. Can be grown in full sun or shade. In the South, light shade is necessary. Loamy acid soil, rich in organic matter, is preferred, and a mulch of peat moss or leaf mold will ensure more luxuriant growth.

Rhododendrons, with their beautiful flowers and broad-leaved, leathery, evergreen foliage, are perfect anywhere in the landscape or foundation planting. They are extremely effective when planted in groups or borders, combining all colors for contrast and interest. They can be used with dramatic effect at entranceways, and in combination with other plants in front of the house. Wherever grown, they will reward you with a lifetime of garden beauty. For planting this spring; we offer the following varieties:

CATAWBIENSE GRANDIFLORUM. 1394. Deep lilac blooms.

CATAWBIENSE ALBUM. 1392. Beautiful glistening white.

ENGLISH ROSEUM. 1395. Soft rose with a tint of lilac.

DR. H. C. DRESSLHUY. 1393. Deep crimson red.

HARDY *American Holly*

**Brilliant Red Berries! Beautiful Evergreen Foliage!
Add Color & Variety to Your Landscape All Year!**

(*Ilex Opaca*) By far the most famous of the Holly family. Now acclimated to northern states, it is rapidly becoming one of our most important ornamentals. Perfectly suited to foundation planting for every type of home, and excellent for lawn specimens. Grows to a height of 25 feet but looks best when kept trimmed to a compact size of 8 to 12 feet. Plant in any good garden soil; we recommend the use of aluminum sulphate in planting. Grows best in semi-shade.

Grow your own Christmas holly! The broad, oak-like shiny leaves are distinctive and their rich green color is greatly enhanced by quantities of bright red berries which appear in the fall and remain nearly all winter. Beautiful throughout the year, the tree appears to greatest advantage at Christmastime. Plant this spring, for years of garden beauty! Your choice of either **1366 male or 1364 female plants.**

Plant one of each for best results.

▲ AZALEA MOLLIS

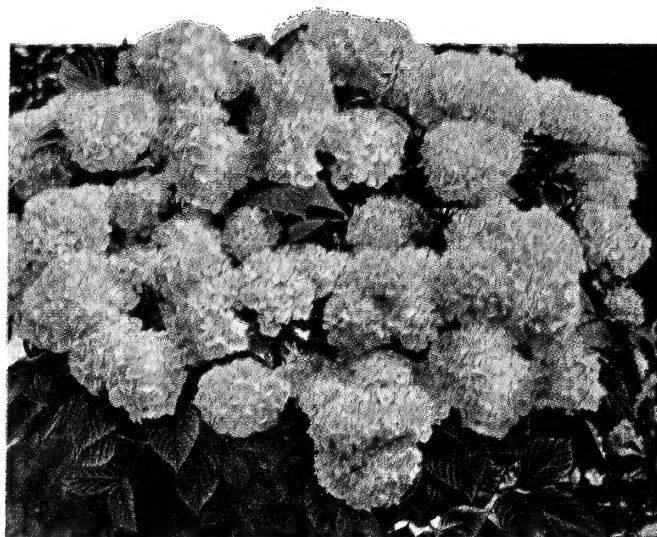

Gorgeously colored aristocrats of the garden! Clusters of large, waxen blooms completely cover the 3 to 4 foot, graceful shrub in May and June. This unusual, hardy shrub offers many possibilities for enlivening your garden with sparkling color. Use them for color accents in foreground of shrub border or foundation planting; in groups or borders, for bold color effects along a driveway or garden walk. The glossy, evergreen foliage is handsome throughout the year.

Can be grown either in full sun or in the shade (prefer light shade in the South). A generous quantity of leaf mold and acid peat mixed into the soil at planting will induce finer blooms. Do not cultivate deeply as Azaleas root close to the surface. **Choice of colors: 1314, Orange; 1316, Red; 1318, Salmon; 1320, Yellow.**

BLUE HYDRANGEA ▲

1374. (Nikko) New, hardy strain of Blue Hydrangea. Bears immense flower heads, 6-12 inches across, which last many weeks. In ordinary soil the flowers are pink, but in acid soil they are blue. A deeper blue can be maintained by applying aluminum sulphate to soil during growing season. Grows 3 to 4 feet tall; does best in semi-shade. Broad-leaved foliage is attractive all season. Excellent for foundation planting or border.

3-Yr. Plants.....	\$2.15	\$4.15	\$7.95
2-Yr. Plants.....	1.65	3.15	5.95

Exotic BIRD-OF-PARADISE

2880. (Strelitzia reginae) Tropical beauty for your indoor garden! Only the famed plumage of the jungle bird for which it is named, can equal the gorgeous reds, blues, yellows and vivid orange combined in the flowers of this amazing plant! Can be easily grown indoors in a sunny location. Mature plants grow about 3 feet tall and carry as many as 25 to 30 flowers at a time. Usually start blooming when 9 to 12 healthy, full-size leaves have formed. Flowers are unusually long-lasting — are prized for exotic arrangements. Plants may be set outdoors in summer to grace the patio or terrace. Order plants now, while supply lasts. **\$2.50 each; 2 for \$4.50; 4 for \$8.50, postpaid.**

PINK HYDRANGEA

1375. (Domotoi) Beautiful pure pink blooms are produced in immense, globe-shaped clusters 12-15 inches across. Last 10 weeks or more. Make a truly impressive showing as lawn specimens, border or foundation plants. Grow 3-4 feet tall and about 4 feet across. Do well in sun or light shade. Require little care; live for years. **2-Yr. Plants, \$2.45 each; 2 for \$4.75; 4 for \$9.25, postpaid.**

Free Gifts for Early Orders!

Ordering Early Pays You Handsome Dividends

Order before April 1st, 1961 and receive one of these Gifts from Emlong's, for every \$6.00 worth you buy from this catalog. Here's how it works: With every order of \$6.00, you may select any one of the premiums listed.

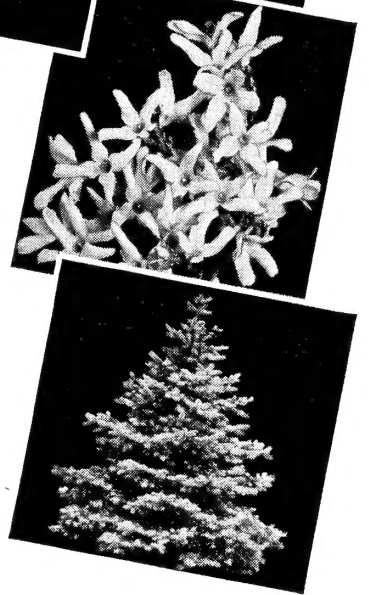

With every order of \$12.00, you may select any two premiums, alike or different.

With each additional \$6.00, you may select one more premium.

IMPORTANT. Premiums allowed only on orders with full remittance enclosed. No premiums allowed on C.O.D. orders. The premiums you select must be written on the order, or none will be sent; even if you notify us later. If we run short of some items, we reserve the privilege of changing premiums—sending you stock of equal or greater value.

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our 1961 Spring Catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you, we choose items that fit in with the other items on your order.

References: We refer you to the Farmers & Merchants National Bank, Benton Harbor, Michigan; Postmaster and Express Agent at Stevensville, Michigan; Merchants Credit Bureau, Benton Harbor, Michigan; and Dun and Bradstreet.

ORDER BY NAME and CATALOG NUMBER

Items listed in this catalog will be reserved for you as long as the limited supply of them lasts. Many items were sold out early last year! Don't wait until planting time — reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention. Order early and save!

WE RETURN ALL PAPERS

All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us **AT ANY TIME** in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

GET YOUR COMPLETE PLANTING GUIDE...

With every planting order, we send **FREE** a complete Planting Guide. It tells in a clear simple way how to plant, so that even if you have never done any planting, you can have success. It tells how to prune, water and care for plants over winter; how far apart to plant; when and where to plant, etc.

10% Discount ... FOR JANUARY CASH ORDERS

All orders postmarked before February 1st, and accompanied by cash in full, will be allowed a 10% discount on all items, except special offers and those marked "No Discount." Your order will be reserved for you and shipped at proper planting time for your locality. Order early and save!

EMLONG'S GUARANTEE TO YOU

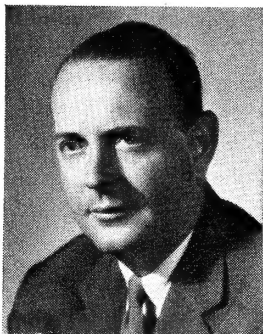

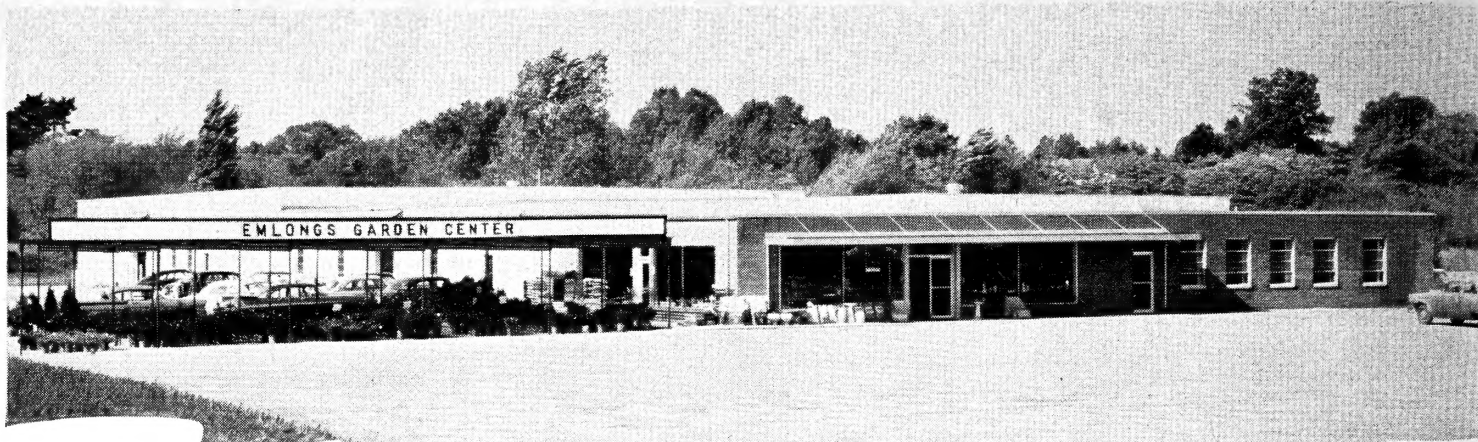

Emlong's guarantee everything to reach you in finest growing condition. If found to be otherwise, make damage claim within 3 days after receipt of stock and we will replace damaged items free.

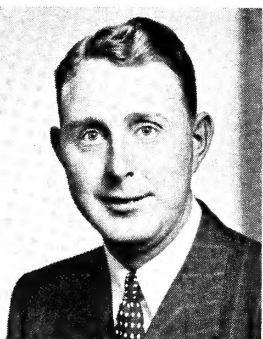

Emlong's guarantee all stock to live and grow. If anything fails, report such loss to us within 60 days, or not later than July 1st. We replace during the next planting season. Half price replacements from July 1 to September 1. The nursery is not responsible for losses caused by unfavorable weather or improper planting care.

Emlong's guarantee everything to be true to name. If found to be otherwise, we will replace free upon due proof of untruthness.

It is mutually agreed that our liability cannot be greater than the purchase price.

NEW

Storage-Packing & Office Building Means BETTER PLANTS — FASTER SERVICE for Our 400,000 Customers Across the Nation

This has been a big year for Emlong's. After more than 70 years in the horticultural business, we now are better equipped than ever to meet your needs through our "shop-by-mail" and "drive-in" service.

In July 1959, we opened our new modern building, after plans for the new Detroit-Chicago Expressway cut through the heart of our old nursery, taking all of our office and packing facilities. Our new plant contains upwards of 30,000 square feet, or more than $\frac{2}{3}$ of an acre, of facilities devoted to filling our customers' nursery orders. In addition, there are extensive lath areas to display the many items we handle for those who call at our nursery.

One of the biggest improvements we have made has been our enlarged refrigerated storage areas. This will enable us to deliver to you all types of plant material in the very best growing condition. Our improved working areas will enable us to give you better, faster service than ever before. We, as lifetime nurserymen, can help you make your garden more beautiful, more fruitful, and more enjoyable.

Satisfaction Guaranteed

Our satisfied mail order customers number in the hundreds of thousands across the nation and are growing in number each year. You save money and get better plants when you deal direct with the grower. We have several hundred acres of planting materials growing under modern scientific cultivation methods, supervised by expert nurserymen with a lifetime of experience. Our nurseries

are located in one of the most favorable growing areas of the nation, bordering on beautiful Lake Michigan. We have a long growing season, giving time to make strong, thrifty plants and our winters are cold enough to ensure complete hardiness.

About Our Catalog

Our catalog is not simply a sales book, but a guide to better plants. You will find all of the newer and better varieties carefully described and illustrated. You will not find anywhere, a finer selection of the best in plant materials. Every plant is backed by our written guarantee, giving you complete satisfaction from every purchase made from Emlong Nurseries.

SEND LIVING GIFTS

For Christmas, Easter, Mother's Day, Anniversaries, Birthdays, and Other Occasions.

Every year, more and more people desire to send friends and loved ones Living Gifts, that will be cherished for years. It's so easy to do.

You select from our catalog whatever you wish to give. With your order and remittance, send us the name and complete address of the person (or persons) to whom you want your gift shipped. We will then send this person a suitable Gift Certificate giving your name as donor and list the nursery stock you have selected (without prices). Your gift will then be shipped at the proper planting time. We guarantee satisfaction to you and to those receiving your gifts.

Hills of Snow Hydrangea

Handsome Hydrangeas

HILLS OF SNOW HYDRANGEA

1370. Immense flower heads of pure white blanket the plant, giving it the appearance of a living "snow-bank"! Blooms all summer from July to October. One of the finest plants for shady spots, alongside the house or in borders. Has large, heart-shaped leaves. Grows 3 to 4 feet tall; upright and compact.

Postpaid	Each	2	4
2-3 ft.	\$1.50	\$2.75	\$5.25
18-24 in.	1.25	2.25	4.25
12-18 in.	1.00	1.75	3.25

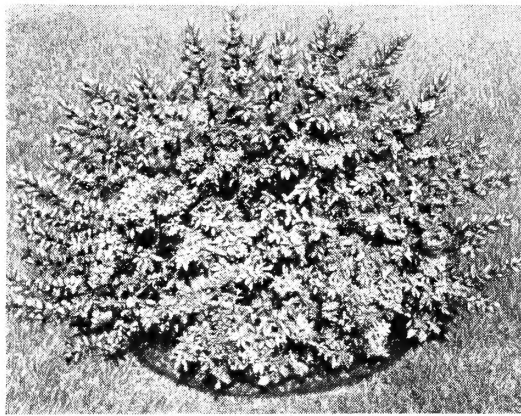

HYDRANGEA, P. G.

1372. The fascinating, 3-colored Hydrangea. Huge, cone-shaped flower heads are white when they first come into bloom, then gradually change to shades of pink and bronze as the season progresses. Blooms from midsummer to frost. Does well in sun or partial shade. Height 4 to 6 feet. Very showy.

Postpaid	Each	2	4
2-3 ft.	\$1.50	\$2.75	\$5.25
18-24 in.	1.25	2.25	4.25
12-18 in.	1.00	1.75	3.25

Hydrangea, P.G.

DWARF FIRETHORN

1435. (Pyracantha Angustifolia) Beautiful ever-green shrub that can be used with great effect in garden and landscaping plan. Has long slender branches and narrow green foliage, forming a dense bush. White flowers bloom in May. In fall, great quantities of bright orange or brick-red berries appear and remain into winter. For a low, colorful hedge it is one of the best, and perfect for contrast among other shrubs and foreground of foundation planting. **\$1.95 each; 2 for \$3.75; 4 for \$6.95, postpaid.**

WHITE SNOWBALL

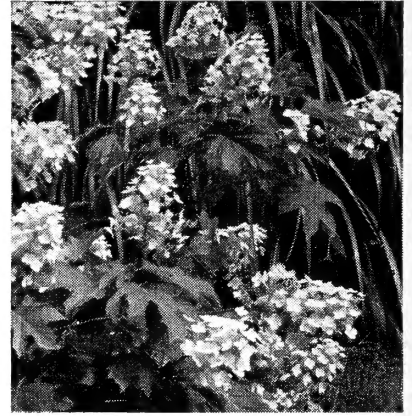

1405. An attractive shrub in all seasons. Desirable for lawn specimens and corner plantings. Large, white ball-like flower heads bloom in spring. Broad, 3-lobed leaves of bright green turn shades of bronze and purple in the fall. Grows 6 to 8 feet tall at maturity.

Postpaid	Each	2	4
18-24 in.	\$1.25	\$2.25	\$4.25
12-18 in.	1.00	1.75	3.25

OAK LEAF HYDRANGEA

1373. Unusual and beautiful, both in leaf and flower. Blooms in June, producing its white flowers in extremely long panicles. Foliage resembles oak leaves, is attractive all season and especially so in fall when it turns a rich crimson. Spreading in habit and grows about 5 feet tall. Does best in partial shade. Hardy; easy to grow.

Postpaid	Each	2	4
18-24 in.	\$1.65	\$3.20	\$6.20

COTONEASTER

1344. (Divaricata) A showy ornamental shrub that is rapidly gaining in popularity. Grows medium tall; spreading habit. Gracefully drooping branches bear clusters of small pink flowers in June, followed by bright red berries. Bright green, waxy foliage turns red in fall.

Postpaid	Each	2	4
18-24 in.	\$1.50	\$2.75	\$5.25
12-18 in.	1.25	2.40	4.50

SCARLET FIREBUSH QUINCE

1396. Very early in spring the bush is most colorful with its great profusion of brilliant scarlet-red flowers. Foliage is dark, glossy green lightly tinged with maroon. Bears small, fragrant Quinces, which make delicious jelly. Grows 3 to 4 feet tall. This very attractive shrub is fine for single specimens or hedges.

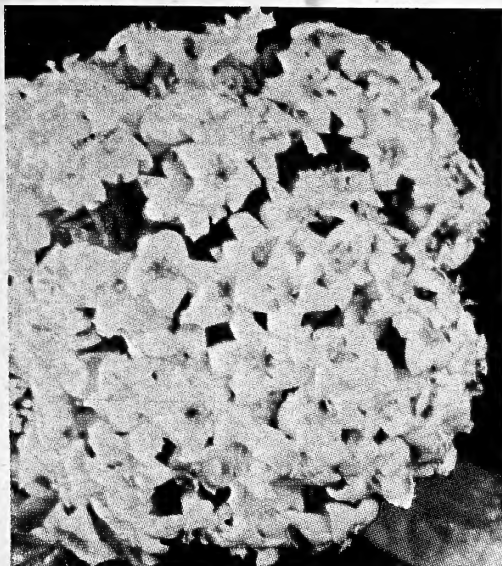

mens or hedges.	Each	2	4
2-3 ft.	\$1.50	\$2.75	\$5.25
18-24 in.	1.25	2.25	4.25

CALYCANTHUS

1340. Commonly called Sweet Shrub or the Strawberry Shrub. The handsome, bronze-chocolate colored flowers are produced in June and are most entrancing because of their spicy fragrance. Odd looking pods develop later and are filled with brown, aromatic seeds. During summer the plant is attractive with clean, glossy green, corrugated foliage. 4-6 ft.

Postpaid	Each	2	4
18-24 in.	\$1.25	\$2.25	\$4.25
12-18 in.	1.00	1.75	3.25

HARDY VIBURNUMS

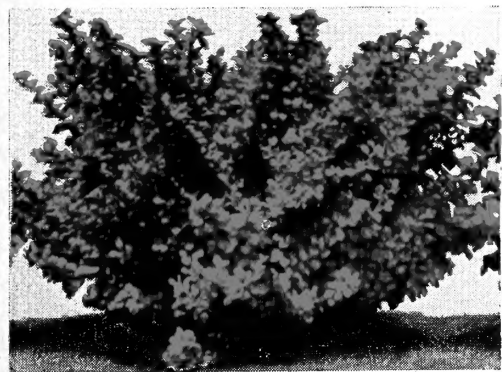

JUDDI. 1419. An outstanding new origination of Arnold Arboretum. This highly rated, improved variety is similar to *Viburnum Carlesi*. The plant is slightly smaller, but has larger flowers and the leaves are a darker green in color. The light pink, sweetly scented flowers are a delightful addition to the outdoor living room.

BURKWOODI (Gardenia-Scented Snowball) 1418. Has the hardiness, rapid growth, beautiful foliage and general dependability of the family, plus a new loveliness of bloom and **gardenia scent**. Lovely waxy, blush-white flowers are borne in ball-like masses. Grows 3 to 4 feet tall.

CARLESI. (Fragrant Pink Snowball) 1417. One of the most popular and widely planted spring flowering shrubs. Blossoms of delicate pink are so fragrant they perfume the entire yard. Attractive dark green foliage turns bronzy-red in fall. Grows 5 to 6 feet tall; thrives in sun or semi-shade. Hardy and easy to grow.

Prices of above varieties:

Postpaid	Each	2	4
12-15 in. field-grown.....	\$2.25	\$4.25	\$8.25

Dwarf RED LEAF BARBERRY (CRIMSON PYGMY)

1326. New, low-growing plant that is perfect wherever rich color accents are desirable. Grows 8 to 12 inches tall and 15 to 24 inches across. The foliage is lustrous bronzy-red, except for the new growth tips which are several shades lighter and sparkle brilliantly in the sunshine. This rich color is retained all season and provides a most effective contrast when planted among evergreens and shrubs.

For something different, plant *Crimson Pygmy* as an edging along a walk, around a patio, or flower bed. You will be more than pleased with the results! Set plants 12 inches apart and in full sun to obtain the brilliant foliage color. Plant this spring, for charming new beauty that will last for years.

Postpaid	Each	2	4
2 Yr. Field-Grown plants..	\$1.50	\$2.75	\$5.25

ALTHEA (ROSE OF SHARON)

Impressive, tall growing shrub with large, double rosette flowers and handsome green foliage. Blooms from late summer through fall, when many other shrubs have finished blooming. The flowers are brilliantly colored and contrast beautifully with the foliage. Blooms are long lasting and make a showy display all season. Popular for tall back-grounds, and well suited for screens or single specimens. Grows 6 to 8 feet tall; erect and well-shaped. An old-time favorite, but worthy of a place in every modern garden. **Your choice of colors:** 1306, Pink; 1308, Purple; 1310, Red; 1312, White.

Postpaid	Each	2	4
18-24 in.	\$1.00	\$1.85	\$3.65

HEAVENLY BLUE ALTHEA

1305. (*Althea Coelestis*) Resembles a big Blue Morning Glory! You will be delighted with this new introduction. The large, wide open, flaring flowers (often 3 to 4 inches across) are borne on long stems from July to frost. Erect growing, stately and formal in shape, it is perfectly beautiful as a lawn specimen, and invaluable for tall back-grounds or screens, or colorful hedge.

Postpaid	Each	2	4
18-24 in.	\$1.50	\$2.75	\$5.25

↑ New-Unusual CRIMSON ROCKET (PRUNUS NEWPORT)

Bush Form. 1322. We can now offer exquisite Flowering Plums in shrub form. This new variety is richly colored and elegant the year around. The crimson foliage retains its color all season. Grows 3 to 5 feet tall and may be kept trimmed to proper size for any location. Fine for borders and color contrast among other shrubs.

Postpaid	Each	2	4
2-3 ft.	\$1.95	\$3.75	\$7.25

Tree Form. 1288. This highly ornamental tree is prized for the year-around beauty it contributes to the landscape. The reddish-purple foliage is colorful from early spring through fall. Grows to medium height; upright in habit, graceful and symmetrical in form. Ideal for every type home.

Postpaid	Each	2	4
3-4 ft. branched trees..	\$2.25	\$4.25	\$8.25
2-3 ft. branched trees..	1.95	3.75	7.25

CORKBARK Burning BUSH (Euonymus Alatus Compactus)

1338. A very unusual shrub that attracts attention wherever seen. Produces small yellow flowers in spring, followed by red fruits. Oval-shaped green leaves turn a brilliant coppery-crimson tinged rose, in fall. Has an unusual corky bark. Thrives in sun or shade. Its compact growth and easy culture make it one of the outstanding shrubs for use as single specimens, in shrub border or hedge.

WELCOME BIRDS

WITH

Emlong's Colorful

BERRIED SHRUBS

Christmasberry

Birds are worthy friends in the garden. Annually they destroy millions of harmful insects. Attract them to your garden by planting shrubs that will provide food and cover.

CHRISTMAS BERRY. 1446. The grand display of white blooms in early spring is climaxed by an enormous crop of bright red berries which delight many varieties of birds. Handsome, shiny green foliage turns a colorful bronzy-red in fall. Compact habit of growth. Height 6-8 feet. Makes striking winter bouquets.

Postpaid	Each	2	4
12-15 in. plants	\$1.75	\$3.25	\$6.25

HIGH BUSH CRANBERRY. 743. Many species of birds are attracted by the great clusters of brilliant red berries which ripen in July and remain most of the winter. Makes a very delicious tart jelly. Plant is upright, spreading in growth habit. Height 10 feet. Large, flat clusters of white flowers bloom in May and June.

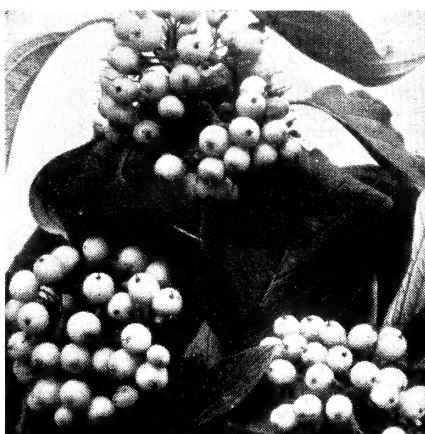

Postpaid	Each	2	4
18-24 in.	\$1.25	\$2.35	\$4.50

High Bush Cranberry

RED TWIG DOGWOOD. 1454. Conspicuous for its bright red bark which adds a burst of color to the garden during winter. Lovely in spring and summer with creamy-white flowers and bright green foliage, and again in fall when white berries contrast with the red bark. Grows 6-8 feet tall. Hardy.

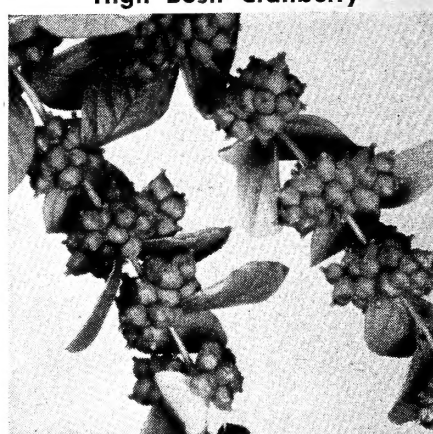

Postpaid	Each	2	4

Nanking Cherry

Beautiful ORNAMENTAL SHRUBS

DAPHNE CNEORUM

1444. Captivating, deliciously fragrant plant of dwarf, spreading habit. Dense, slender foliage is practically evergreen. From early spring to May the plant appears as a low pink mound — with its great profusion of fragrant, rose-pink blossoms. Blooms again in early autumn. As an edging plant in front of evergreens and shrubs, it is unequalled. Valuable too, as a low hedge along garden walks and around flower beds. Foliage is a rich, glossy green. Perfectly hardy; easy to grow. Here is a choice plant that merits a place in every landscape plan. **Strong, 8-10 in., plants, \$2.25 each; 2 for \$4.25; 4 for \$8.25, postpaid.**

RED BARBERRY

1104. This beautiful Barberry, valued for its brilliant red foliage, holds its rich color all summer and fall. Red berries remain through winter. Makes a good color contrast among evergreens and as a complete hedge, it is gorgeous. Plant 18 inches apart in sunny location. Rust-proof variety. Grows 3 feet tall. Well-branched bushes. **Select 3-Yr., Field-Grown Plants.**

	Each	2	4

ABELIA GRANDIFLORA

1302. A beautiful shrub that remains attractive most of the year. Bears a continuous supply of pink and white blooms from early summer until frost. Foliage is glossy and practically evergreen. Grows to about 5 feet at maturity. Recommended for borders, groups or single specimens. Can be used as a hedge in sunny or partly shaded areas. In cold climates, we suggest planting in a protected location. An excellent shrub that will make a grand display of color wherever planted.

Postpaid Each 2 4
18-24 in...\$1.50 \$2.75 \$4.95

BUDDLEIA

Butterfly Bush or Summer Lilac

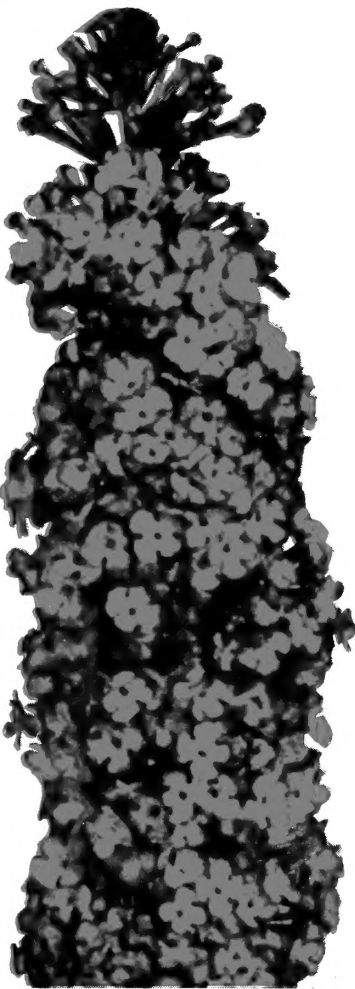

No other perennial or shrub gives such a brilliant, lasting display of color so soon after planting as the Buddleia. These bushes will grow 4 to 5 feet this summer and bloom abundantly from midsummer to late fall. They attract rare butterflies. Cut off tops each fall. New tops grow each year and bloom on the new wood. No special soil needed. Easy to grow; require little care.

ROYAL RED. 1336. Newest of the brilliant tones; deep wine-red. Striking in bouquets.

DUBONNET. 1332. Magnificent 12-inch flower spikes of glowing Dubonnet-red.

ILE DE FRANCE. 1334. A favorite deep purple. Grows 4-5 ft. tall. A real beauty.

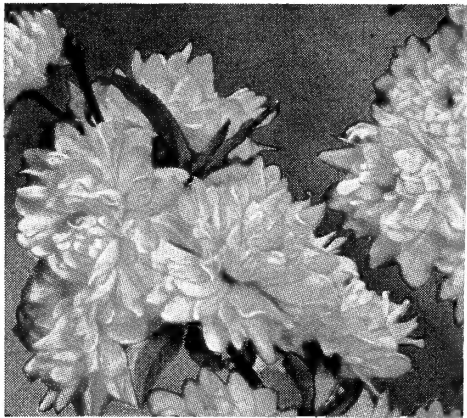

PINK CHARMING. 1330. Delicate pink blooms on long spikes; bushy plant about 5 ft. tall.
2-Yr., No. 1, Field-Grown Plants, \$1.00 each; 2 for \$1.95; 4 for \$3.65, postpaid.

DWARF SCARLET SPIREA ANTHONY WATERER

1406. A remarkable dwarf growing shrub, of compact, upright habit. Makes a very dense, neat, rounded bush 2 to 3 feet tall. In June the bush is completely covered with bright crimson flowers, borne in flat clusters about 3 inches across. Will bloom until frost if flower heads are cut off as they fade. Makes an excellent low bushy hedge that requires no trimming; also fine under picture windows and for borders.

HARDY HEDGE PLANTS

① HARDY PRIVET

(Amoor River North) 1110. Easiest to grow of all Privets. Very hardy and will thrive where other plants fail. Makes an attractive hedge in all seasons with its glossy green leaves and clusters of white flowers, followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For a wider hedge, plant 2 rows, alternating the plants. Well branched, well rooted bushes.

ROSA MULTIFLORA—A Living Fence

1112. Now you can have a natural living fence that will last for years, without expensive upkeep. **Rosa Multiflora** is the amazing new hedge material that garden and farm magazines have written so much about recently. The plants are very hardy; grow rapidly, and in just a few years will make a hedge dense enough to keep all types of animals in their place.

Eliminate expensive repair bills and maintenance costs by planting **Rosa Multiflora** wherever a fence is needed. Easy to grow; thrives under most soils and conditions of weather. Requires no training, pruning or clipping. Grows to a height of 8 feet, blooms each year and is the most practical, decorative planting material that can be used. Plants should be set 12 inches apart. A living fence adds beauty and value to your property. Plant **Rosa Multiflora** this spring.

③ GREEN BARBERRY

1102. (Barberry Thunbergi) Makes the ideal low growing hedge, for front lawns, along short driveways and corner groups. Dwarf growing, uniformly bushy and rounded in form, numerous leaves covering thorny twigs. Bright green foliage turns gold and scarlet in fall; red berries remain through winter. Immune from rust. Very hardy. Can be clipped or left natural as desired. In either case, it grows into a fine compact low hedge which requires no care. Set 18 inches apart.

LOMBARDY POPLAR HEDGE

1168. Rapid growth and general hardiness make this one of our most valuable trees for screening hedges, windbreaks and for stately accents along drives and avenues. The trees branch thickly from the ground up and when planted 3 to 4 feet apart, will provide a dense hedge in just 2 to 3 years after planting. Naturally columnar in form; easily kept trimmed to desired height.

Glistening Red Berries Distinguish These New Viburnums

VIBURNUM SETIGERUM

1456. A splendid new Viburnum that is considered one of the best all-season shrubs in cultivation. Handsome, clean deep green foliage appears in early spring, followed by lovely white flowers which add to its charm.

Setigerum comes into its most colorful stage in late summer and early autumn when the plant is literally covered with large clusters of brilliant red berries. These ornamental fruits carry over well into winter.

Similar in growth habit to other Viburnums. Easy to grow, as they succeed in a variety of soils. Mature height is about 10 feet. Rare and choice. Order now for spring planting.

Postpaid	Each	2	4
2-yr. field-grown	\$1.50	\$2.75	\$5.25

VIBURNUM WRIGHTII

1458. From Japan comes this distinctive and beautiful new variety. The handsome, deeply veined, oval-shaped leaves of metallic green color provide a perfect foil for the brilliant red berries.

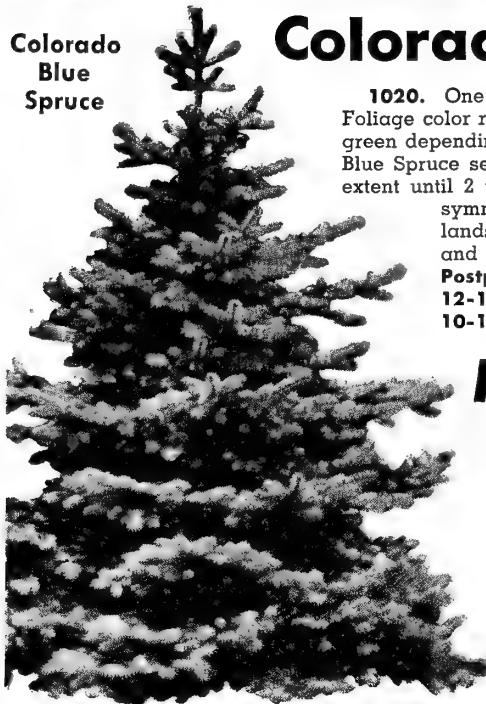

From August until October, large cymes of glistening red fruits are produced in such great abundance the branches are often weighted down to the ground. In late fall, when the foliage turns a rich crimson, the effect is truly dazzling. The plant develops into a spreading bush about 4 to 6 feet tall. Easily grown, hardy and trouble free. A very worthwhile addition to your home grounds.

Juniper

Majestic Spreading Junipers

SPREADING PFITZER JUNIPER

1012. Very desirable in foundation plantings for use beneath windows and in front of taller evergreens. The beautiful blue-green, feathery foliage is attractive the year around. May be trimmed as desired. Branches will spread 6 to 8 feet if left untrimmed. Withstands considerable shade. Very hardy.

COLORFUL BLUE PFITZER JUNIPER

1004. Used extensively in foundation work where the attractive blue foliage is desirable for contrast. Low, spreading growth makes it ideal for planting under picture windows, corner groups and lawn specimens. Rapid growing; hardy.

Spreading ANDORRA JUNIPER

1002. A prostrate creeping type, valuable where height is a controlling factor. Makes an effective ground cover. Silvery-green foliage in spring and summer, turning a beautiful mauve-pink at the first touch of frost.

LOMBARDY POPLAR

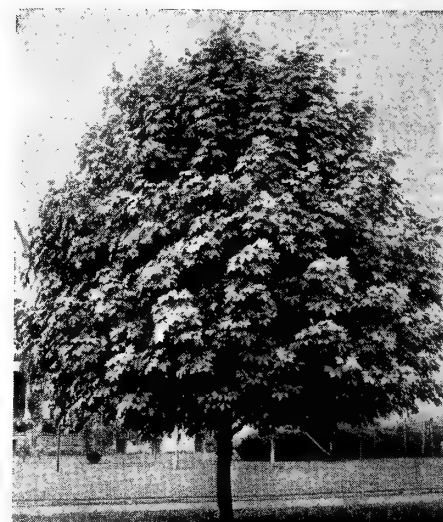

1246. Thrives on the poorest of soils and grows rapidly, attaining a height of 75 feet or more at maturity. Stately, tall, naturally columnar in growth. Branches from the ground up; needs no pruning. Dark green, well-formed leaves have a lighter undersurface. Presents an elegant aspect when planted along driveways and property lines. It is also an excellent tree for hedging, windbreaks and tall screens.

NORWAY MAPLE

1212. Large, handsome Maple with broad, rounded head. Considered by many the best all-around shade tree. Well liked for its familiar symmetrical form and ability to grow under city conditions. Dense, rich green foliage remains on the tree longer than other Maples in the fall. Used extensively for lawn specimens and along streets, drives and parkways. A hardy, clean growing tree that grows more attractive each succeeding year. Approximate height at maturity is 40 to 50 feet.

MORaine LOCUST

Sensational Fast Growing Shade Tree

(Plant Pat. No. 836) 1220. The beautiful new Moraine Locust is superior in many ways to other fast growing trees. It is hardy, drought-resistant, easy to transplant, and grows successfully on a wide range of soils. Withstands the same extremes of temperature as the common Honey Locust and is as long-lived. Does not produce unsightly seed pods to clutter the lawn, and non-fruiting habit also makes for better foliage.

Provides Good Shade — Won't Harm Grass

The Moraine Locust forms a large, beautifully shaped head, similar to the American Elm in appearance. Finely cut foliage allows enough light to filter through to promote good lawn growth, yet provides shade dense enough to discourage crabgrass. Graceful, vigorous and sturdy, it is an ideal tree for large or small lawns, parkways and street planting. Will give a lifetime of satisfaction. Plant this spring. Order early, while supply lasts.

SUGAR MAPLE

Heralds Autumn's Golden Beauty

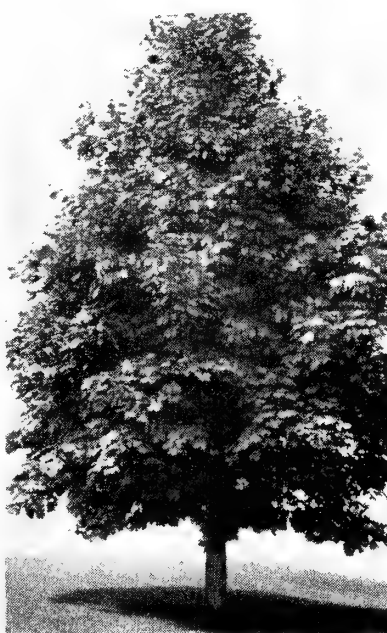

1244. (Acer saccharum) Stately and beautiful at all seasons of the year — the Sugar Maple comes into its greatest glory each autumn, when the dense foliage changes to brilliant tints of gold, orange and scarlet.

Native to most sections of the country, it is one of our finest trees for shade and landscaping of homes, parks and city streets.

Lives for Generations

The Sugar Maple is vigorous, upright growing and long-lived. Develops into a beautifully shaped tree, about 60 to 75 ft. tall at maturity. Valuable for timber and as a source of maple sugar. Much in demand by landscapists for its easy growth and gorgeous coloring.

GROUND COVERS

PACHYSANDRA

1528. (Terminalis) Valuable for use in densely shaded areas, and the only plant that will thrive under pine trees. Spreads rapidly, forming broad mats of waxy, bright green leaves. Foliage stays green all winter. Grows 6 to 8 inches high. Makes a beautiful low hedge for bordering walks and drives. Widely used as a covering on steep terraces, and under all kinds of shrubs and trees.

Select Plants — Postpaid	5	10	25	50	100
	\$1.00	\$1.95	\$4.25	\$7.95	\$14.95

VINCA MINOR

1526. (Periwinkle) Attractive, glossy green leaves and violet-blue flowers make a very showy and effective ground cover. Used extensively under shrubs and trees, and on graves. Spreads rapidly, making a dense, compact growth. Plants are hardy and trouble free; will thrive in sun or shade. Suitable for edging along wooded paths and borders. Set plants 4 to 6 inches apart.

	\$1.00	\$1.95	\$4.25	\$7.95	\$14.95

HALL'S HONEYSUCKLE

1519. A favorite plant both as a vine and ground cover. Grows rapidly and will thrive in sunny or shady locations. Because it roots deeply, it is an excellent plant to prevent soil washing away. Valuable for use on steep banks where other plants will not hold. Fragrant flowers are borne all summer, adding to its charm. Very hardy and easy to grow. Space plants about 18 inches apart.

Postpaid	10	25	50	100
	\$3.95	\$7.95	\$14.95	\$24.50

BALTIC IVY

1511. (Hardy English Ivy) The dense, glossy foliage creates a beautiful evergreen covering on steep banks and terraces. Also widely used for edging walks and borders. In some locations, where grass is not practical, it makes a splendid, easy-to-keep lawn. Thrives in dense shade under trees and shrubs. Plants are absolutely hardy; spread rapidly and make a lush green carpet in any location. Require very little care. Space plants about 8 inches apart.

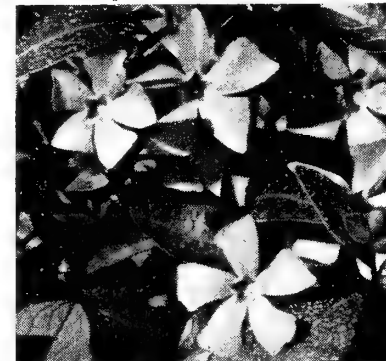

Postpaid	10	25	50	100
	\$3.95	\$7.95	\$14.95	\$24.50

DWARF POLYGONUM

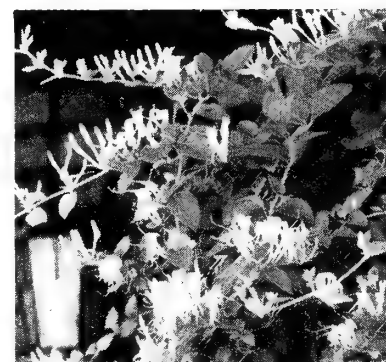

1521. One of the newer ground covers and a most attractive plant. Grows 12 to 18 inches tall and produces numerous airy sprays of pink flowers. The pale green foliage turns a brilliant red in autumn. The plant is very hardy and easily grown; establishes itself quite rapidly from underground runners. One of the best ground covers for sunny locations. The fragrant flowers and foliage make a very colorful display. Plants should be set 18 inches apart. 95c each; 2 for \$1.85; 4 for \$3.45, postpaid.

colorful Ornamental Trees

← REDBUD (Cercis Canadensis)

1280. (Also known as Judas Tree) Here is a tree of great charm and artistic beauty. Small, graceful and irregular in form. It is a memorable sight in early spring with its myriad rose-pink blossoms covering every branch and twig. It grows with very little care and is adaptable to a wide range of soils. Attains a height of about 20 feet.

Lovely as lawn specimens. Also very effective in the shrub border where its conspicuous spring color followed with large, heart-shaped, rich green leaves add variety to the planting. Hardy and enduring. Wherever planted, Redbud trees will give years of garden beauty and pleasure.

	Each	2	4

3-4 ft. trees.....	2.10	3.95	7.45

Graceful WEEPING CHERRY

1253. Exquisite and unique! Drooping branches grow from the top of the slender main trunk, somewhat resembling the frame of an umbrella. In spring, the tree attracts much attention when the branches are covered with delicate clusters of dainty pink flowers. Used in pairs to accent entrances. Also planted singly in gardens or where attention needs to be focused.

	Each	2
5-6 ft. trees.....	\$7.95	\$14.95

Colorful TREE HYDRANGEA

1296. A choice tree and one of the finest for ornamental planting, as a specimen or in the foreground of high massed shrubs. Does not exceed 8 to 10 feet at maturity. Has large panicles of flowers which are white when they appear in early summer, changing to shades of pink and bronze as the season progresses. Hardy, long-lived and disease-resistant. Grow well in any climate. Need very little care. Always lovely.

4-5 ft. trees.....	\$4.50	\$8.75	\$16.95
3-4 ft. trees.....	3.50	6.75	12.95

DOUBLE SCARLET HAWTHORNE

1286. This beautiful double-flowering Hawthorne is one of the choicest ornamentals grown. Blooms in late spring, bearing compact clusters of deep, crimson-scarlet double flowers, produced in immense quantities. The leaves are broad, and attractive both as to color and shape. Low-growing, spreading habit; ideally suited for the small garden or as lawn specimens. Very hardy and never fails to bloom. Well branched. An unusual and beautiful small tree you will enjoy for years.

	Each	2	4
5-6 ft. Br. trees.....	\$4.95	\$9.50	\$18.50
4-5 ft. Br. trees.....	3.95	7.50	14.50

ROSE OF SHARON TREE Tree Althea

A plant that is very similar to the shrub form but has been grown and cultivated with a single stem so it assumes the shape of a small tree. Gay, brightly colored blooms are produced from July until frost. Flowers are large and flaring, contrasting beautifully with the dark green foliage. Very free flowering. A most handsome small tree for ornamental planting, as a specimen, or in the foreground of high massed shrubs. Specify color wanted. **1251, Red; 1250, Pink; 1249, Blue.**

	Each	2	4
3-4 ft. trees.....	\$2.75	\$4.95	\$8.95

FAASSEN RED MAPLE

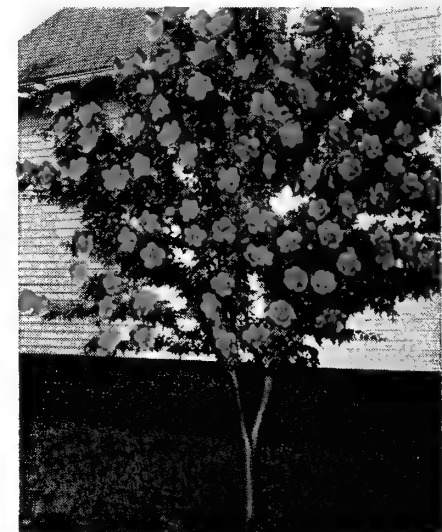

1210. An unusual tree of striking color. The foliage is deep red when it first appears, becoming much darker as the season progresses, until it is almost blackish-red. The magnificent leaf color is retained through the summer. The trees are perfectly hardy, compact and of excellent form, growing into a fine shade tree.

	Each	2	4

3-4 ft. trees.....	3.50	6.75	12.75

DWARF JAPANESE MAPLE

1274. A superbly colorful small shrub or dwarf tree; seldom grows more than 10 ft. tall. Spring and summer coloring is a vivid blood-red which dulls to bronzy purple-red towards fall. Best in full sun.

	Each	2
12-18 in.	\$4.45	\$9.50

• 16 • Tree Althea

DWARF ST. GEORGE'S CRAB. 1254. Superior new strain of Double Flowering Crab. Flowers are larger; foliage more resistant to rust. Lovely deep pink, double blossoms resemble tiny roses. Produced in prodigious quantity every spring. Small, low, beautifully shaped tree. Widely used for screening, as well as for accenting the lawn, or the shrub border.

	Each	2	4
3-4 ft. br. trees.....	\$2.75	\$5.25	\$9.25
2-3 ft. br. trees.....	1.95	3.65	6.95

TANNER CRAB. 1260. One of the very best White Flowering Crabs. Masses of shimmering, snow-white blossoms shroud the branches in spring, creating a tree of exquisite beauty. The bountiful small red fruits remain on the branches a long time in fall, giving additional color to the garden. A medium size tree; about 10 feet to 15 feet tall at maturity.

	Each	2	4
3-4 ft. trees.....	\$2.25	\$4.25	\$8.25

RED SILVER CRAB. 1257. Remarkable new lawn tree, distinctly colorful from top to bottom — red foliage, bark and flowers! The leaves are a unique combination of maroon-red on top, silver underneath. Spring blossoms are rich, deep red in bud and open flower — the reddest of any Flowering Crab! Artistic branching habit; graceful in form. Very hardy. Marvelous addition to any landscape scene.

	Each	2	4
3-4 ft. trees.....	\$2.25	\$4.25	\$8.25

KWANZAN FLOWERING CHERRY

1252. The flowers of this variety are particularly beautiful and showy. Large, 2-inch blossoms with about 30 large petals of bright rosy-pink appear in early spring, followed by dark green foliage. Millions of visitors to Washington, D. C., have marvelled at the beauty of these trees. Extremely hardy, vigorous and rapid growing. As a lawn specimen or border tree it is unexcelled.

	Each	2	4
4-5 ft. trees.....	\$3.95	\$7.50	\$14.50

FLOWERING CRABS

ALMEY CRAB. 1256. Breathtaking clouds of dollar-size, glistening fiery red blooms make a spectacular show in early spring. The compactly covered branches look like a mass of flame! In fall, small scarlet fruits appear and cling to the branches long after the leaves have fallen, adding another bright splash of color. Grows 12 to 15 feet tall. Have this sensational tree for your landscape — it's hardy, rapid growing, graceful and distinctive.

3-4 ft. branched trees.....	2.50	4.75	9.25

STRATHMORE CRAB. 1259. Splendid new type of Flowering Crab, distinguished by its stately, pyramidal form. Myriad rose-pink blossoms appear in early spring. The leaves are reddish all summer, turn brilliant scarlet in autumn. Grows 10-15 feet tall; form is similar to Lombardy Poplar. Can be planted 3 to 5 feet apart for screening or a wind-break. Fine for lawn specimens and groups.

	Each	2	4
3-4 ft.	\$2.25	\$4.25	\$8.25

HOPA CRAB. 1258. A sumptuous display of bright red buds and fragrant pink flowers in early spring. Small red apples borne in midsummer are highly prized for jelly making. Attractive maroon colored foliage is another asset of this popular, low-growing tree. Suitable for both large and small gardens. Can be grown in the shrub border or among flowers. It is one of the loveliest of the small flowering trees — to grace your lawn, line a driveway, or as a focal point in your garden.

VINES

**Colorful
Decorative**

BOSTON IVY

(*Ampelopsis Veitchii*)

1510. The best known, most popular of climbing plants. Very attractive, 3-lobed glossy green leaves. A rapid grower after established; clings to any surface. Thrives in sun or shade. Foliage turns scarlet in fall. Valuable for wall covering, tree trunks and posts. **2-yr. Select Vines, \$1.10 each; 2 for \$2.10; 4 for \$3.95, postpaid.**

KUDZU VINE

1530. Very hardy and extremely rapid grower, from 30 to 40 feet in one season. Large, attractive foliage provides dense shade or screen. Colorful in August with its many racemes of rosy-purple, pea-shaped flowers. **2-Yr. Vines, 75c each; 2 for \$1.45, postpaid.**

Wisteria Vine

Chinese Bittersweet

Everblooming GOLDFLAME Honeysuckle

1516. Beautiful flower clusters as large as your hand, cover the vines from June until frost. Curved petals and long stamens; brilliant rose-red outside and gold inside. Lovely for cutting. May be trimmed as vine, shrub or low hedge. Blooms profusely year after year; requires little care. **2-yr., field-grown plants, \$1.00 each; 2 for \$1.95; 4 for \$3.50, postpaid.**

HALL'S Fragrant Honeysuckle

1518. Dainty yellow and white blossoms intermingled, produce a beautiful effect all summer. One of the most fragrant of all Honeysuckles. Vines are hardy, vigorous growers; ideal for covering unsightly buildings, screening out undesirable views and softening harsh fence lines. **2-yr., field-grown plants, 65c each; 2 for \$1.25; 5 for \$2.95, postpaid.**

ENGLISH IVY (*Helix Bulgaria*)

1512. A superior Ivy of proven hardiness and vigor. Will establish itself quickly on stone walls, buildings and tree trunks, creating a luxuriant cover of closely spaced, glossy green foliage. Introduced by Dr. Edgar Anderson of Missouri Botanical Gardens. Performs equally well as a ground cover for shady areas. Shows promise of becoming the leading Ivy for vine and ground cover. **2-yr. plants, 60c each; 3 for \$1.65; 6 for \$2.95, postpaid.**

EVERGREEN BITTERSWEET

1514. (*Euonymus Radicans Vegetus.*) Strong growing variety. Dark green firm leaves last through winter and form an excellent background. Bears clusters of large, red Bittersweet berries; make good winter bouquets when dried. Will climb either brick or wood. Adaptable as a shrub or ground cover. Valuable for shady places where a delicate evergreen is needed. **2-yr. Select Vines, \$1.45 each; 2 for \$2.75; 4 for \$4.95, postpaid.**

ORCHID WISTERIA VINE

1524. Hundreds of gracefully pendulant clusters, 12 inches and more in length, cover the vine during May and June. These hardy Wisteria will lend a charming touch to your garden when grown on fence, trellis or garden wall. The pea-like, orchid-colored florets are borne in dense, compact clusters and make a gorgeous display in full bloom. A hardy, vigorous growing vine that will last for years. Well adapted for arbor plantings. **2-yr. field-grown vines, \$1.50 each; 2 for \$2.75; 4 for \$4.95, postpaid.**

TRUMPET VINE

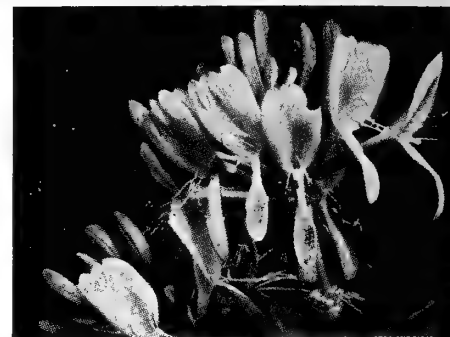

1522. Large, orange-red, trumpet-shaped flowers and bright green, leathery foliage make this one of the most decorative of vines. In bloom from 6 to 8 weeks starting in July; makes a colorful, dense screen. Will cling to wood, brick or any rough surface. Grows 15 to 20 feet. No insects bother it. Very hardy and vigorous growing; prefers a sunny location. Ideal for covering barns, stone fences, walls, etc. **2-Yr. Vines, \$1.00 each; 2 for \$1.80; 4 for \$3.50, postpaid.**

CLIMBING HYDRANGEA

1517. One of the choicest climbing vines. The effect created is most artistic as well as amazing. Its bold, clean and shrubby foliage is a rich, dark green color. The Hydrangea-like blooms are borne on projecting short spur-like branches throughout the summer. Blooms are white and very fragrant. A hardy, vigorous growing vine that will last for years. Clings to brick and wood without any support. Does equally well in shade or sun. The height can be easily controlled. **\$3.00 each; 2 for \$5.75, postpaid.**

CHINESE BITTERSWEET

1515. The most prolific fruiting variety known. The leaves are a glaucous green and somewhat larger than those of the common Bittersweet. It grows rapidly in any kind of soil, in sun or partial shade. In autumn yellow and orange-scarlet berries cover the vine all over instead of an occasional small cluster as in the common kind. This variety will always fruit even if planted alone, but we recommend that you plant two. Excellent for late fall and winter bouquets. **\$1.45 each; 2 for \$2.75, postpaid.**

Gold Flame Honeysuckle

Evergreen Bittersweet

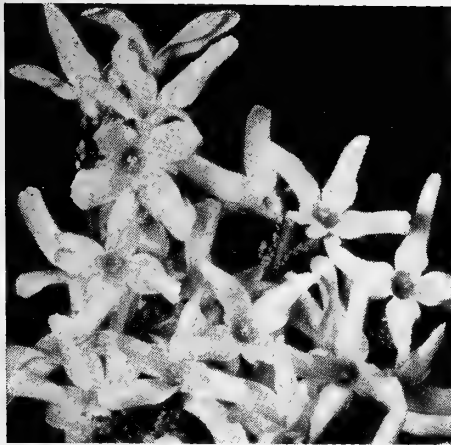

SILVER LACE VINE

1520. Beautiful, fast-growing vine. Myriad clusters of dainty, snow-white blossoms cover the vine all summer. Will grow 15 to 20 feet the first year; clings to any support. Prefers a sunny location. Foliage is perfectly clean; not bothered by insects. Valuable for covering unsightly buildings, barns, walls. Also adds great charm to porches, patio walls and doorways. **2-Yr. Select Vines, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

Broad-Leaf EVERGREENS

WILL BEAUTIFY YOUR YARD THE YEAR AROUND!

American Holly
Ideal for Hedges

1365. Colorful throughout the year with its distinctive, glossy evergreen foliage and brilliant red berries. Very hardy, can be grown in all sections. Grows rapidly and may be trimmed to any desired height from 4 to 20 feet. Grows best in fertile, well-drained, acid soil. We recommend the use of aluminum sulphate in planting. Makes a beautiful, dense hedge for outlining property lines, driveways, walks and for screening purposes, to shut out noise and unsightly views. Plant 3 feet apart in the row. **8-12 in. plants, 3 for \$2.29; 5 for \$3.29; 10 for \$6.29; 25 for \$14.95, postpaid.**

BOXWOOD

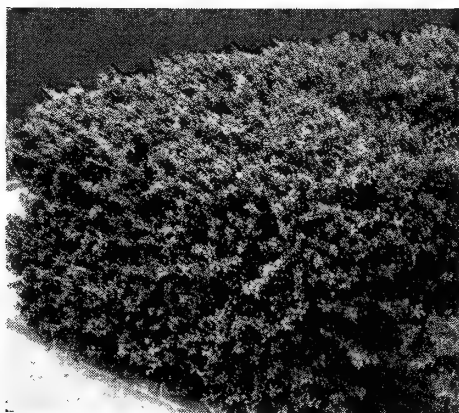

WELLERI. 1436. The hardiest Boxwood in cultivation. Will thrive anywhere; in poor soils, in sun or under tall trees and in sunless corners. Has large, dark green attractive leaves. Makes a dense hedge quickly and can be trimmed to any desired height and shape. Perfect for low hedges and edgings. Whether grown on the small-home grounds or on a large estate, Boxwood gives an appearance of age and dignity to the surroundings. **Heavy 6-8 in. Plants, \$1.69 each; 2 for \$2.98; 4 for \$5.69, postpaid.**

Hollies

ILEX CONVEXA

1431. One of the choicest of broad-leaf evergreens. Plant is very bushy; grows about 3 feet tall. Shiny, dark green, Boxwood-like foliage is somewhat convex. Blends beautifully with other evergreens; is also an excellent accent plant. Well suited for low hedges. Plant 18 inches apart, in full sun or light shade.

Ilex Convexa

ILEX ROTUNDIFOLIA

1430. A compact evergreen shrub with shiny green foliage, which reminds one of Boxwood except leaves are somewhat heavier. A handsome member of the Holly family; particularly suited to low plantings such as hedges, under windows in foundation planting or in front of taller plants. One of the most popular hardy Broadleaf Evergreens grown.

	Each	2	5	10
10-12 in. Plants..	\$1.50	\$2.85	\$6.50	\$12.50
6-8 in. Plants..	.75	1.40	3.25	6.25

OREGON GRAPE HOLLY

1432. (*Mahonia Aquifolium*) Holly-leaved evergreen shrub. Has large, spiny, metallic-looking leaves which turn bronzy-red in fall. Spike-like clusters of yellow flowers in spring are followed by purple-black fruits. Grows to an ultimate height of 2½ to 3 feet. Does well in shaded areas. Hardy, easy to grow. Perfect in groups, borders or among other evergreens. **Selected 8-10 in. Plants, \$1.50 each; 2 for \$2.75; 4 for \$5.25, postpaid.**

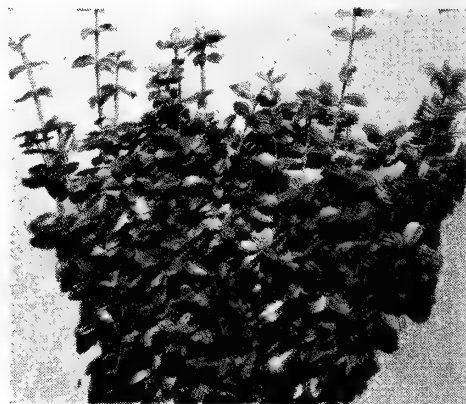

EUONYMUS RADICANS

1440. An upright, broad spreading shrub with rich bright green foliage that remains on the plant year round. Makes a shapely bush 4 to 5 feet tall. Its growth habit and easy culture make this an outstanding shrub for individual specimen planting. A plant that will blend well with your established evergreen plantings. The rigid branches are a perfect sight when carrying the red berries which hang on late in the season. Thrives in sun or partial shade. Be sure to plant one or more in your garden for a brilliant autumn display. **Heavy 12-15 in. plants, \$1.69 each; 2 for \$2.98; 4 for \$5.69, postpaid.**

EUONYMUS PATENS

1438. Attractive and easiest grown evergreen shrub. Compact and shapely; grows about 6 feet tall. Rich green foliage remains on the plant nearly throughout winter; is quickly replaced by shiny new foliage in spring. In autumn, numerous Bittersweet orange berries add to its charm. Splendid for hedge or specimen planting. Succeeds in shade. **Heavy 12-15 in. plants, \$1.49 each; 2 for \$2.69; 4 for \$4.95, postpaid.**

Silver Queen

HYBRID MAPLE

- SEEDLESS
- FAST GROWING
- VERY HARDY
- GROWS ANYWHERE

1238. We are particularly pleased to offer this sensational new Hybrid Silver Maple to our customers, because we believe its many superior qualities meet the needs of present-day home owners.

As you know, the Silver Maple has been an excellent, fast growing shade tree for many years. Its only fault was the production and shedding of seed pods which were a nuisance. Consequently, Mr. Henry Kleine of Newport, Michigan hybridized a Maple for us that has developed into a wonderful, fast growing, long-lived, seedless tree.

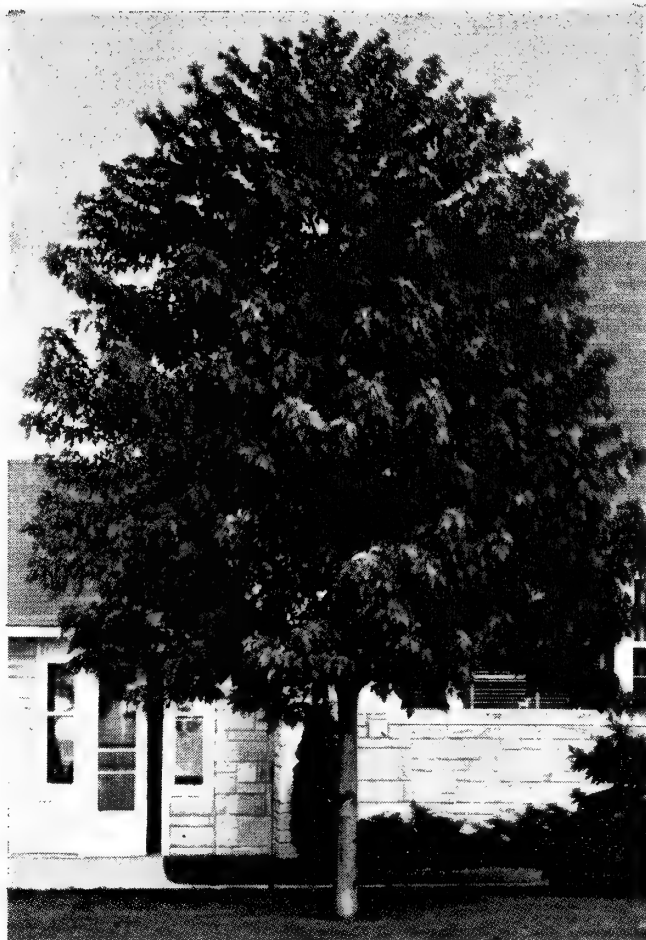

IDEAL FOR NEW HOMES

A Beautiful Setting and Good Shade Quickly!

The Silver Queen Maple is drought-resistant, hardy and adaptable to a wide range of soils. It is a beautiful shade tree with interesting cut-leaf type foliage and pyramidal in form. The rapid growth of this tree is the answer to a long-felt need of many of our customers who want shade and a beautiful background for their homes in the shortest time possible.

It also meets the needs of those who find it necessary to replace undesirable trees. To many, the cost of planting large shade trees would be prohibitive. With Silver Queen Maple there is no need to wait years — you get lots of shade and beauty in a short time, at a reasonable cost! Our supply is limited. Order your trees early and avoid disappointment.

Emlong's ARTISTIC BIRCHES — Accent Your Home Beautify Your Lawn

CUT-LEAF WEEPING BIRCH

Picturesque Summer and Winter

1202. Graceful, pendulous branches, finely-cut silvery-green foliage and shimmering white bark make this a tree of unsurpassing beauty the year around. Adds great charm to every landscape scene. Completely hardy; succeeds in most soils, but prefers a sunny, moist location. Grass will grow right up to the trunk. White bark appears a year or two after planting. A single tree makes a superb lawn specimen. Or a grouping of three or four adds great distinction to the home grounds.

MULTIPLE BIRCH

Beautiful Year Around!

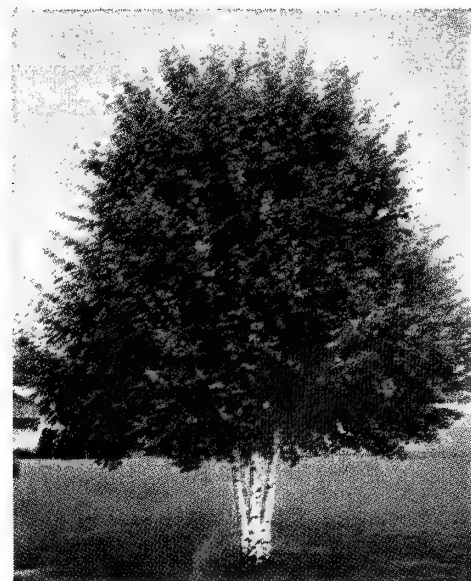

1224. (Clump Birch) These are a special strain of beautiful American White Birch which produce three or more trunks from one root. Bark is white on 2- to 3-year-old trees and stays white winter and summer. Dense, bright green foliage covers the fine graceful branches, providing an effective contrast to the white bark. Leaves turn a pleasing yellow in fall.

Growth is gracefully upright; about 25 to 30 feet at maturity. Perfectly hardy; thrives everywhere. Widely used for specimen planting or naturalizing. You'll enjoy their artistic beauty throughout the year!

Blue Ribbon Roses

HAWAII (Plant Pat. No. 1833)

1684. Completely different and as exciting as Hawaii itself! Never have we seen a color to compare with its warm, glowing blend of orange-coral — and the color lasts from bud stage until the petals wither and fall! Different too, is the pronounced raspberry fragrance. Picture this exotic Rose growing in your garden and in floral arrangements, — its dynamic color enhanced by glossy, rich green foliage. Tall, bushy plant; very hardy. **2-yr. No. 1 bushes, \$3.50 each; 3 for \$9.20, postpaid.**

GARDEN PARTY (Plant Pat. No. 1814)

1670. 1960 AARS Award Winner. Beautiful long buds open to immense full blooms of rich ivory at the heart, shading to creamy tones and with a distinct flush of appleblossom pink at the edge of each wide flaring petal. Healthy, strong growing plant with handsome olive-green foliage. **2-yr. No. 1 bushes, \$3.00 each; 3 for \$7.95, postpaid.**

KORDES PERFECTA (Plant Pat. No. 1604)

1656. Combines an intriguing blend of colors. Basically cream-white, this fabulous new Rose is lined with red, as though the petal edges were dipped in carmine — the warm red color spreads throughout the flower as the buds open, revealing a suffusion of yellow. Beautifully formed, long-lasting, fragrant blooms on long stems produced freely throughout the season. The 3-foot plant is vigorous, healthy and perfectly hardy. **2-yr. No. 1 bushes, \$3.50 each; 3 for \$8.40, postpaid.**

PINK PEACE (Plant Pat. No. 1759)

1654. A direct descendant of the famous Peace — Pink Peace has characteristics which make it one of the most perfect Roses ever created! Its color is deep, dusty pink — a shade that is rich, soft and completely charming. Its size is terrific — very double, full cupped, 6-inch blooms with 60 to 65 petals. It blooms with extravagant freedom — huge shimmering blossoms, borne one to a long stem, are produced continuously all season. It has strong, pleasing fragrance and non-fading quality. Complementing the perfect blooms is a plant of enormous vigor, upright, well-branched with large, leathery foliage. Truly a "must" for your garden this spring. **2-yr. No. 1 bushes, \$3.00 each; 3 for \$7.95, postpaid.**

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

1652. Newest of the red Roses. An exciting, rich, vivid crimson-red enhanced by vibrant overtones of dark oxblood red. The long tapering buds open to very large blooms with 40 to 50 wide petals, symmetrically arranged. The bush is compact with abundant dark green foliage. Blooms continuously. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

HELEN TRAUBEL (Plant Pat. No. 1028)

1658. Unusually long, graceful buds open to very large flowers of good form, fine substance and pleasing fragrance. Color varies from sparkling pink to luminous apricot, sometimes orange. The plant is exceedingly vigorous; good grower; free bloomer with excellent foliage and habit. **2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.**

WHITE KNIGHT (Plant Pat. No. 1359)

1680. AARS Winner for 1958. The first White Hybrid Tea ever to win this honor! Magnificent 5-inch blooms of pure white, satiny beauty — bloom freely and continuously; retain their purity of color until the petals drop. Plant is vigorous, bushy, upright; has thick, lively green foliage. **2-yr. No. 1 bushes, \$3.00 each; 3 for \$7.95, postpaid.**

DUET (1961 All America Winner)

1682. (Plant Pat. No. 1903) Thrilling new bi-color — harmoniously blending a "duet" of warm and lovely colors. As the beautiful, urn-shaped buds unfold, the flowers display facing petals of soft salmon-pink with the reverse side a rich, sparkling orange-red. This rich coloring is retained despite adverse weather conditions. The vigorous, well-branched plant is exceptionally prolific — you'll enjoy a continuous succession of perfectly formed, long-lasting blooms, all season. **2-yr. No. 1 bushes, \$3.50 each; 3 for \$8.40, postpaid.**

STERLING SILVER (Plant Pat. No. 1433)

1672. New as tomorrow! A completely different color — with all the warmth and beauty of rich sterling silver. Slender, tight buds of lavender pink slowly unfold into glistening, silvery 5-inch blooms, each one a perfection of beauty and sweet, lingering fragrance. Here is a "must" for you who want the new and truly distinctive! The bush is medium tall, vigorous and free blooming, with luxuriant, leathery dark green foliage. **2-Yr. No. 1 Bushes, \$3.00 each; 3 for \$7.95, postpaid.**

PEACE (Plant Pat. No. 591)

1668. Winner of AARS Award for 1946. Beautiful, ovoid buds of golden yellow etched with pink. As they slowly open, the color changes from canary yellow to pale gold to iridescent cream; the veined and rolled petals are edged with appleblossom pink. Glorious 5 to 6-inch blooms carried on heavy, erect stems. Subtle fragrance. Holly-shaped foliage. **2-Yr. No. 1 Bushes, \$2.50 each; 3 for \$6.60, postpaid.**

MOJAVE (Plant Pat. No. 1176)

1660. Winner of the only 1954 All-America Award for a hybrid tea. Mojave takes its name from the famous California desert. Its rich coloring is typical of a desert sunset — glowing orange shot with flame-like tones of scarlet and vermillion. Graceful, tapering buds open to superb, richly fragrant, warm-hued blooms. Vigorous plant; exceptionally free-blooming. **2-Yr. No. 1 Bushes, \$2.75 each; 3 for \$7.20, postpaid.**

EVERBLOOMING

Tree Roses

Our Tree Roses are budded on stem trunks 40 inches tall. They form bushy heads, bearing a profusion of large, fragrant blooms from spring until frost. For garden grandeur at 2 levels plant them in beds with your other Roses. They can also be used along driveways with charming effect. Plant in front of a picture window and enjoy their beauty indoors and outdoors. We offer only those varieties which bloom freely all season.

CHRYSLER IMPERIAL. 1810. Vivid crimson red; very colorful.
HELEN TRAUBEL. 1808. Varicolored; pink to luminous apricot.
PEACE. 1812. Cream-yellow; petals edged appleblossom pink.
MOJAVE. 1816. Glowing orange with tones of scarlet.
CRIMSON GLORY. 1804. Intense crimson shaded oxblood red, mellowed by velvety nap.
THE DOCTOR. 1814. Sparkling silvery-pink, 6-inch blooms!
ECLIPSE. 1818. Tapering buds open to golden yellow blooms.
KORDES PERFECTA. 1806. Cream-white; petals edged carmine.

Above 8 varieties: \$6.75 each 2 for \$12.50 Postpaid

STERLING SILVER. 1826. Pink-lavender buds open slowly to glistening, silvery 5-inch blooms. Sweetly fragrant. New and very distinctive.

ARLENE FRANCIS. 1820. As glamorous as the Star for whom it was named! Rich, golden yellow color; perfect form; unforgettable fragrance.

PINK PEACE. 1824. Exceptionally large, full blooms. Rich, deep dusty pink color. Strong, pleasing fragrance. Handsome, leathery foliage.

AZTEC. 1822. Flaming scarlet-orange. Giant 6-inch blooms that last amazingly well and won't fade. An "eye-catcher" in the garden and exhibits.

WHITE KNIGHT. 1828. Magnificent blooms of satiny, pure white; retain their purity of color until the petals drop. Foliage is a lively green.

Above 5 varieties: \$7.75 each 2 for \$14.50 Postpaid

New MULTICOLOR TREE ROSES

The Century's Most Exciting Development in Roses! . . . 2 DIFFERENT COLORS ON 1 TREE!

Emlong's Newest Introductions. These fabulous new Tree Roses are budded to strong, 3-foot trunks bearing two different varieties and colors of Roses — in bloom at the same time on one tree! Extra-hardy, disease-resistant plants. Bloom continuously and abundantly. We offer two superb varieties:

CHRYSLER IMPERIAL and WHITE KNIGHT. 1830. Vibrant crimson-red blooms contrasted with blooms of satiny, pure white — against a background of rich green foliage. A garden gem of sparkling, lively color!

CHARLOTTE ARMSTRONG and PEACE. 1832. Exquisite cerise blooms complementing the canary-yellow and cream-pink suffusion of Peace. A picture of unparalleled beauty. Have them for your garden this spring!

These fascinating, tiny Rose plants are perfect for edging beds of larger Roses and for lining garden walks. In solid beds by themselves they make an interesting center of attraction in the garden. They are hardy and grow as readily outdoors as the large Roses. Bloom freely all summer. You'll enjoy them in the garden, and to cut for enchanting arrangements and corsages. We offer the following varieties:

POMPON de PARIS. 1725. Beautiful double flowers of bright pink color. Compact plants, very free flowering; continuous bloom all season.

BABY GOLD STAR. 1722. (Pat. No. 407) Fully double blooms of golden yellow all through. The only true yellow Miniature.

OAKINGTON RUBY. 1723. Deep crimson buds open to fully double blooms of rich ruby-crimson. Blooms from May until late fall.

PRINCE CHARMING. 1729. Constant and prolific blooming. Fully double, rich sparkling carmine-red flowers.

PIXIE. 1726. (Pat. No. 408) The most double of all — 40 or more tiny petals to each tiny bloom! Pure white with blush-pink center.

BABY TALISMAN (Presumida) 1721. Recent Spanish introduction of bright orange-gold and salmon. Like Talisman in bud and flower.

Your choice of above: \$1.25 each; 3 for \$3.30, Postpaid.

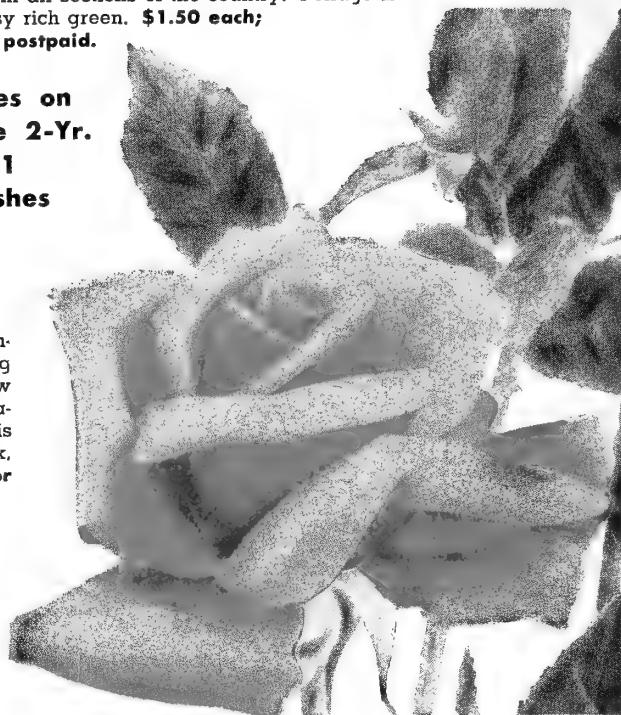

Climbing Roses

◀ **BLAZE** Everblooming Climber

1702. Blooms gloriously and continuously for months! Very double, blazing-red flowers are produced in large clusters from June to September. Makes a magnificent display — with thousands of 2 to 3-inch blooms on just one plant! Picture it against a white fence or wall; framing a window or doorway; on a post, trellis or porch. Wherever you plant it the results will be tremendously rewarding. Hardy, vigorous and reliable. Grows to a considerable height, sending up long, supple canes which are easily trained. Will succeed in all sections of the country. Foliage is healthy, glossy rich green. **\$1.50 each; 3 for \$3.95, postpaid.**

CLIMBING BLOSSOMTIME ▶

1720. (EVERBLOOMING) Pat. No. 1240. Considered by Rosarians to be the perfect Everblooming Climber. Blooms early and continues until the snow flies! Exquisite blooms of camellia-pink, sweetly fragrant, of medium size and Hybrid Tea form. This variety fills a long felt need for a real Camellia-pink, full-petaled, hardy climbing rose. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING SPECTACULAR

1708. (EVERBLOOMING) Pat. No. 565. When you see this grand new Climber in full bloom you'll know why it was named Spectacular. That's just what it is — a spectacular living drapery of glorious color! Fully double, 4-inch blooms of orange-red borne in clusters of 3 to 4 on a stem. Grows 10 feet tall. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING CRIMSON GLORY

◀ **1704. (EVERBLOOMING) Pat. No. 736.** Rich crimson color, perfect form, fascinating fragrances, plus vigor and profusion of bloom, make this one of the outstanding red Climbers. Beautiful, high centered blooms on strong stems make a magnificent cascade of color throughout the long blooming period. Foliage is rich green, disease-resistant. Sensational anywhere! **\$2.75 each; 3 for \$7.20, postpaid.**

CLIMBING GOLDEN SHOWERS

1714. (EVERBLOOMING) Pat. No. 1557. AARS Winner for 1957. The first Climber to have this distinction. Glamorous, golden yellow, 4 to 5-inch blooms are produced in great quantity all season. Richly fragrant, high-centered blooms on long stems that invite cutting. Very hardy and vigorous with glossy green foliage. **\$2.75 each; 3 for \$7.20, postpaid.**

CLIMBING CHRYSLER IMPERIAL

1710. (EVERBLOOMING) Pat. No. 1528. Velvety maroon buds open to glorious, 5-inch double blooms of iridescent shades of red; the color deepens and becomes more brilliant as the flower unfolds. A vigorous, free-flowering Climber producing an abundance of fragrant Roses all season. Dark green, disease resistant foliage. **\$2.75 each; 3 for \$7.20, postpaid.**

CLIMBING SNOWBIRD

1718. (EVERBLOOMING) We consider this one of the best white Climbers. Dainty, perfectly shaped buds and blooms of glistening, snow-white are produced in succession all season. Pleasing fragrance. Plant it in combination with one of the red Climbers for outstanding color accent. Husky, strong growing plant. **\$1.50 each; 3 for \$3.95, postpaid.**

CLIMBING TALISMAN

1712. (EVERBLOOMING) Lovely, urn-shaped buds of orange yellow open to large blooms of salmon-orange shaded with red and gold. Very striking on fence or trellis, and for framing a doorway or picture window. Fragrant, long-stemmed blooms, favorites for cutting. **\$1.50 each; 3 for \$3.95, postpaid.**

CHARLOTTE ARMSTRONG. 1602. Elegant long, blood-red buds open to cerise blooms of exquisite form; double, high-centered flowers with a sweet fragrance. Luxuriant, deep green foliage; mildew resistant.

CRIMSON GLORY. 1606. Well-formed flowers of deep, vivid crimson shaded oxblood-red and mellowed by a soft velvety nap; produced in abundance all season. Excellent foliage. Compact, well-branched plant.

NIGHT. 1622. Beautiful, shapely buds and flowers of deep crimson touched with shadings of black and maroon. Distinctive and outstanding. Spicily fragrant blooms; glossy dark green foliage; bushy plant.

TEXAS CENTENNIAL. 1620. A large Rose of excellent quality. Brick-red with glints of gold; center lighter red, toning to deep pink with age. Large, vigorous, strong growing bush.

PINK DAWN. 1624. Long, shapely buds of deep rose-pink open to large double, high-centered blooms with tinge of bronze and gold at the base. Sweet fragrance. Popular for cutting.

THE DOCTOR. 1626. Sparkling pink, and one of the largest — 5 to 6-inch blooms! Color is a uniform silvery-pink in bud and open flower.

ECLIPSE. 1608. Best all-purpose yellow Rose. Slim, tapering buds open to golden-yellow, 4-inch flowers. Blooms continuously all season.

DUQUESA DE PENARANDA. 1614. Long, pointed buds of apricot-orange open to blooms of coppery-apricot; very rich color.
Plant with Rex Anderson for a different and elegant effect!

REX ANDERSON. 1616. Perfectly formed flowers of delicate ivory-white contrast dramatically with rich green, healthy foliage. An outstanding exhibition Rose. Subtle fragrance. Vigorous grower.

GIRONA. 1618. Popular multicolor Rose. The graceful, well-formed blooms are a fascinating blend of pink, yellow and carmine. Blooms are fully double with rich, old-rose fragrance. Plant is vigorous with good branching habit. Makes a vivid color display all season.

● Grown especially for Emlong customers by Rose specialists on the West Coast, where growing conditions produce the best Rose bushes in the world.

● Emlong's Hybrid Tea Roses are all 2-yr. plants and will bloom for you this year. Enjoy their fragrance and beauty in your garden this summer.

FLORIBUNDA ROSES

Masses of Color for Borders, Beds, Hedges & Gardens

FIRE KING. 1772. (Plant Pat. No. 1758)
New All-America Winner! Fiery vermilion 3-inch blooms; well formed, very double with 45 to 50 petals. Tall, vigorous bush loaded with bloom, giving a spectacular display. Flowers are non-fading, long-lasting. **\$2.50 each; 3 for \$6.60, postpaid.**

IVORY FASHION. 1752. (Plant Pat. No. 1688) Exhibits the same prize-winning qualities as its parent — Fashion. Elegant buds of pure white with a wispy touch of yellow, slowly open into magnificent, full centered flowers, each fully 4 inches across, their ivory white color non-fading and pure. Fragrant. **\$2.50 each; 3 for \$6.60, postpaid.**

RED WINGS. 1750. (Plant Pat. No. 1788)
A striking deep red that will give a continuous show of color from spring until frost. The flowers come both singly and in clusters. The rich, velvety red color is non-fading and tremendously effective against the abundant green foliage. **\$2.50 each; 3 for \$6.60, postpaid.**

RED PINOCCHIO. 1770. (Plant Pat. No. 812) Perfect buds of satiny carmine-red on the outside and brighter carmine inside, open to 3½-inch blooms of clear red and Hybrid Tea form. These exquisite Roses are borne in large, long-lasting clusters. Bush is upright, vigorous and very free-flowering. **\$1.75 each; 3 for \$4.65, postpaid.**

FASHIONETTE. 1748. (Plant Pat. No. 1563)
The color is the same as that of Fashion except a deeper coral in bud stage. Blooms are Hybrid Tea in form and have a delightful old Rose fragrance. Foliage is dark glossy green. Height 24 to 36 inches. **\$2.50 each; 3 for \$6.60, postpaid.**

FASHION. 1746. (Plant Pat. No. 789) Its outstanding qualities have won it more awards than any other Floribunda! Buds of oriental-red open slowly to perfect Hybrid Tea blooms of luminous coral-pink suffused with gold. Long-lasting with a delicate fragrance. Blooms continuously until frost. **\$2.00 each; 3 for \$5.25, postpaid.**

GOLD CUP. 1744. (Plant Pat. No. 1683)
AARS Award Winner for 1958. It has vigor, large size, excellent form and marvelous deep yellow color. Blooms are 3 to 3½-in., non-fading and sweetly fragrant. The 2½-ft., plant has abundant dark green foliage and blooms from first of season to last. **\$2.00 each; 3 for \$5.25, postpaid.**

PINOCCHIO. 1768. (Plant Pat. No. 484)
Pointed buds of rich salmon flushed with gold at the base open to long-lasting blooms of Hybrid Tea form. As the flowers open they change to soft pink and shade into deeper pink at the edges. Borne in large clusters well above the glossy foliage. **\$1.75 each; 3 for \$4.65, postpaid.**

GRANDIFLORA ROSES

Very Hardy . . . Long Lasting Blooms

Exciting new class of Roses. Combines the free-flowering, rugged hardiness of the Floribundas with the long-lasting, larger blooms of the Hybrid Teas. Don't fail to include some of these in your Rose plantings.

PINK PARFAIT. 1786. (Pat. No. 1904) Exquisite in color and form! The high-centered blooms are a delicate blending of pink pastel shades, with buds ranging from dawn pink to appleblossom pink. Plant is robust, well foliaged and produces a wealth of blooms month after month. Wonderful for cutting. **\$3.50 each; 3 for \$8.40, postpaid.**

EL CAPITAN. 1782. (Pat. No. 1796) Beautifully formed buds and blooms are that radiant cherry-red seen in fiestas of Old Spain! Robust plant, amazingly prolific. Non-fading blooms with 25 to 30 thick velvety petals. **\$2.75 each; 3 for \$7.20, postpaid.**

STARFIRE. 1754. (Pat. No. 1742) 1959 AARS Winner. Rich red, tapering buds open to bright cherry-red blooms of Hybrid Tea form. Produced singly and in clusters. Last well as cut flowers. Holly-like, bronzy-green foliage. Very outstanding. **\$3.00 each; 3 for \$7.95, postpaid.**

QUEEN ELIZABETH. 1776. (Pat. No. 1259) 1955 AARS Winner! The color is a subtle blending of carmine-rose and dawn-pink. Exquisite 4-inch blooms and beautiful foliage. **\$2.50 each; 3 for \$6.60, postpaid.**

BUCCANEER. 1784. (Pat. No. 1119) Brightest, clearest, sunshiny-yellow imaginable! Beautiful tapering buds and cupped flowers, 4½ inches across, carried on extremely long stems. **\$2.50 each; 3 for \$6.60, postpaid.**

SUNBURST LOCUST ▶

(Plant Pat. No. 1313) **1294.** Be first among your friends to have this newest shade tree — **New Sunburst Thornless Locust!** So named because 8 to 10 inches of the branch tips are covered with brilliant golden bronze foliage, in contrast to the bright green inner foliage. It is symmetrical and broadly pyramidal, with excellent branching habit; more disease resistant than common Locust. Hardy and long-lived; will grow in a wide range of soil and climate. Extremely beautiful as a specimen for your lawn or garden, for driveway or tree lawns.

◀ MOUNTAIN ASH

Emlong's European Heavy Fruiting Variety

1222. One of our most gorgeous ornamental shade trees. In spring the tree is covered with white flowers, which are followed in late summer by massive clusters of brilliant orange berries. The narrow, pinnate leaves, arranged on frondlike branches, provide a striking contrast to the flashy berries and smooth brown bark. The berries remain into winter, prolonging the attractiveness of this splendid tree. It is hardy; does well in northern states; thrives in any soil. If you want a sparkling display of color from early spring, right through fall and winter, plant Mountain Ash now! Perfect for tree lawns, borders and individual specimens.

◀ FIRETHORN

1434. (Pyracantha Lalandi) A remarkably beautiful berried shrub that retains its foliage all winter. Large trusses of pure white flowers bloom in May, followed by an abundance of brilliant orange-scarlet berries which densely cover the bush, making it a gorgeous "mound of flame!" The berries remain into winter, adding their brilliant color to the landscape. Valuable for indoor decoration during Christmas holidays. Hardy and vigorous; grows 4 to 6 feet tall. Very effective in foundation plantings, borders and hedges. A distinctive shrub for any yard.

SUNBURST SHRUB

1378. (Hypericum Hidcote) From a famous estate in England comes this grand new variety of Hypericum. Bright golden-yellow flowers, 2 to 3 inches across, bloom in profusion in early summer and continue until mid-October. Dwarf growing habit, about 2 feet tall and 2 feet wide, with dense leathery, green foliage. In cold climates the plant dies down in winter, but sends up new growth each spring. It is splendid for border, group planting, a picture window planter or in front of evergreens. Hardy, easy to grow; thrives in most locations and soils.

Postpaid	Each	2	4
2-Yr. Plants	\$2.15	\$4.10	\$7.75

MISTY BLUE SPIREA ▶

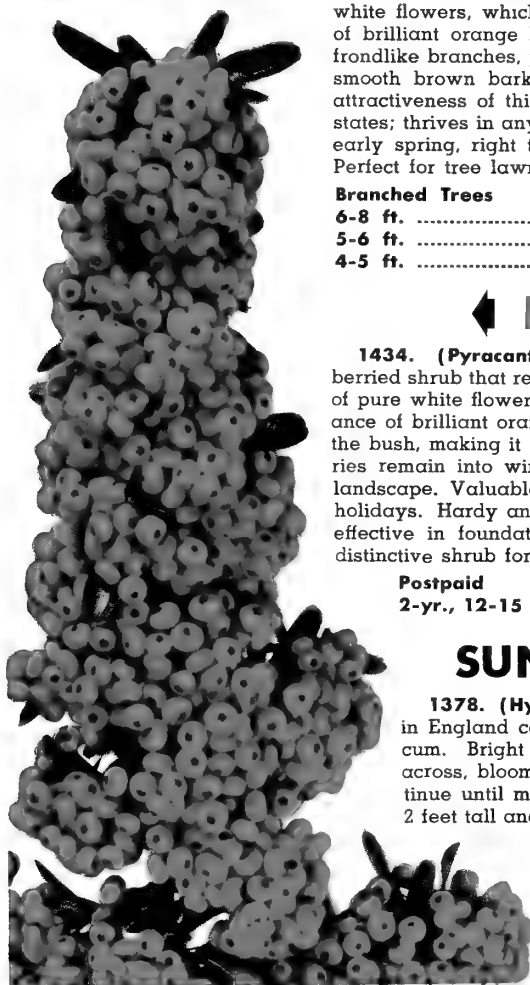

1408. (Caryopteris) The exquisite new **Blue Spirea**. A cloud of fringed, powder-blue flowers cover the low rounded shrub from August through fall. Grows 2 feet tall, forming a perfect mound about 2 feet in diameter. The distinctive flowers and handsome silvery-green foliage add a charming effect to flower border or foreground of shrub plantings. Especially valued for its late blooming habit, when many other shrubs are through. Cut off old tops in the spring, as new canes come up from the ground.

12-15 in., field-grown	Each	2	4
Plants, postpaid	\$1.25	\$2.25	\$4.25

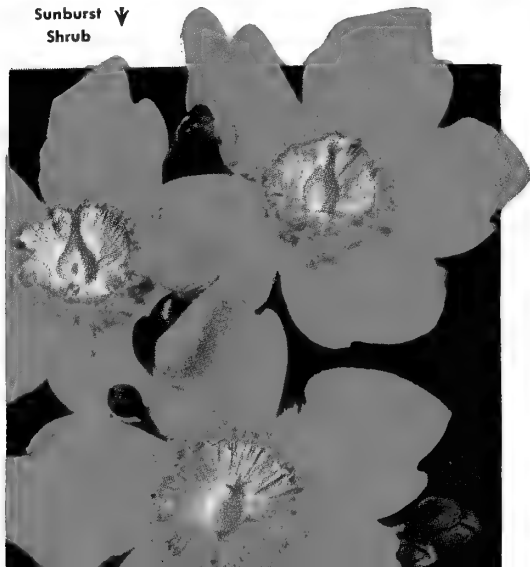

◀ SMOKE TREE

1398. (Purple Fringe) A thrilling spectacle of color that will enliven the entire landscape! Huge foamy sprays of misty purple flowers make it look like a great "puff of smoke" when in full bloom. The flowers are long lasting and make a gorgeous display in late summer. Ours is the hardy variety which can be grown successfully in the North. Grows 6 to 8 feet tall and 6 feet wide. Marvelous for background planting, and for individual specimens on the lawn where its colorful blooms and foliage create a striking effect. A sunny location is preferred.

Emblong's RASPBERRY PLANTS

Black Raspberry

Large Delicious Berries

Outyields All Other Varieties

701. A new Black Raspberry originated by the Iowa State College and introduced in 1955. In tests it outyielded all other varieties. Black Hawk has produced as many as 5000 pints of berries per acre. The very large fruit often measures $\frac{3}{4}$ inch in diameter. The berries are sweet, juicy and have a rich flavor. Excellent for eating fresh, canning or in pies and jam. Ripens midseason, about the first week in July. Plants are strong healthy and vigorous. The berries have a rich glossy black color, and are firm and stand up well in shipping and handling. Highly recommended for commercial growers and home gardeners.

New DAWN – Earliest Variety to Ripen

703. A fine new early Black Raspberry. Very vigorous grower. Hardy and disease resistant. Produces a tremendous early crop. Good money-maker for first-of-the-season berry market. Order early. Supply limited.

PRICES — Black Hawk and New Dawn Black Raspberries

1 Yr. No. 1 Plants.....	1.10	1.60	2.45	5.15	16.95

Please write for prices on larger quantities.

MORRISON – Outstanding Late Variety

708. The outstanding late ripening Black Raspberry. The berries are very large and less seedy than other varieties. Very firm texture yet juicy and deliciously flavored. Hold their shiny black color and firmness exceptionally well; excellent for canning and freezing. Plants are thrifty, disease resistant and bear enormous crops.

CUMBERLAND – Late Ripening Blackcap

702. Ripens midsummer and bears through the late season, producing profitable crops of large, firm, round, glistening black berries that "ooze" with rich flavor. In big demand for fresh desserts, canning and freezing. Plants are self-supporting and non-suckering. Hardy, thrifty growers; will thrive anywhere. An old favorite and still widely planted by commercial growers and in home gardens.

GOLDEN QUEEN RASPBERRY

732. Beautiful large, golden yellow Raspberry. Many prefer Golden Queen because of its sugary sweetness and unsurpassed flavor. An attractive dessert berry and very unusual when served in combination with either Black or Red Raspberries as a dessert. The canes are hardy, vigorous growers and heavy croppers. Ripens with Latham. Culture is the same as that for Red Raspberries.

Latham

RED RASPBERRY Latham

The Commercial Leader

712. Attractive deep red berries, uniformly round and unusually large; often measuring one inch in diameter. Deliciously full-flavored and aromatic. Latham berries are top quality and always in demand for fresh desserts, canning and freezing. They bring highest prices on the fruit market and have long been the leading commercial variety. Plants are hardy, thrifty growers and bear enormous crops.

GROW **Giant** **Blueberries**

— COMMERCIALY
or IN YOUR OWN GARDEN

Useful as Hedges — Foundation Plantings

Blueberry plants have a dual purpose in your planting. They are excellent ornamental shrubs, both when in bloom with large clusters of Lily of the Valley-like flowers, or when loaded with ripening berries; as well as affording delicious fruit for your own use, or to market for profit. The foliage of the Blueberry turns red in the fall, giving a pleasing contrast among other shrubs. Plant Blueberries in shrub borders, hedges or foundation planting.

Beautiful Blossoms — Delicious Fruit all Summer Long. Enjoy luscious, giant Blueberries. Each bush is a fruit garden in itself. The berries are mild and sweet. Fruit ripens over a long season and keeps well on bushes and after being picked. Plants usually start to bear the third year. Plant two or more bushes for perfect pollenization; set 5 to 7 feet apart.

JERSEY — Midseason to late No. 744. Vigorous hardy bushes; yield extra large berries. In our opinion Jersey is superior to other varieties.

RUBEL — Midseason No. 748. A very hardy upright bush that gives generous yields of medium to large size fruit.

RANCOCAS — Early No. 746. The Rancocas variety is of excellent quality and produces a good crop over a long picking season.

Black Giant

Large Delicious SWEET CHERRIES

BLACK GIANT. 406. Our largest, blackest and sweetest Cherry! Bears the heaviest crops of any Sweet Cherry we have grown. A beauty which you will grow with pride.

WINDSOR. 414. Cherries are large, dark maroon in color. Very hardy and an abundant yielder. Self-pollenizing.

BLACK TARTARIAN. 408. The very popular purplish-black Sweet Cherry, which ripens so early and has marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young and heavily. Excellent pollinizer.

SCHMIDT. 412. For the midsummer market there is no finer Sweet Cherry grown. Fruits are extra large, plump and uniform in size. A beautiful dark, glossy black in color. The flavor is rich and superb.

NAPOLEON. 410. The favorite golden Sweet Cherry with beautiful pink cheek. Very large fruits. Heavy producer and good pollinizer.

BING. 404. Famous from coast to coast. Wonderful dessert Cherry. Richly flavored, extra large size, brownish black-red color. Ripens midseason.

BUTTERCUP SHRUB (POTENTILLA MOONLIGHT) ▶

1442. An impressive shrub that grows in an irregular small mound about 2 to 2½ feet high covered with a mass of small fern-like leaves. It is studded with intensely brilliant golden-yellow, Buttercup-like flowers from June until October. It does best in full sun. Very hardy. This charming shrub can be used in front of shrub border or in foreground of perennial plantings. Also an excellent shrub for a low hedge or edging. Planted 12 inches apart, it will make one of the most brightly colored, dense hedges imaginable. A mound of green and gold all summer long.

2-yr. Plants	\$1.50	\$2.75	\$5.25

Lovely CRAPE MYRTLE ▶

This charming plant, which is so much a part of Southern beauty, is now available in hardy form for Northern gardens. Beautiful flowers with fringed petals and soft crepe-like texture, are borne in large panicles. The colors are clear and exquisite. Blooms over a long period during the hot summer months. Has attractive glossy, deep green foliage. The plant dies down to the ground each winter in the North, but sends up new shoots each spring. Will grow in any good garden soil; prefers full sun. Plant 3 feet apart for borders. Choice of colors: 1352 Watermelon Red; 1348 Coral Pink; 1350 Royal Purple. 18-24 in., 2-yr. field-grown bushes, \$1.10 each; 2 for \$2.10; 4 for \$3.95, postpaid.

▶ DWARF GOLDEN MOCK ORANGE

1414. One of the "showiest" of all flowering shrubs, because of its all-season golden yellow foliage. The flowers are intensely white and have a delightful, delicate fragrance. They bloom profusely in early summer. It is a superb plant for color contrast in foundation planting and shrub border. Of dwarf, compact habit; thrives everywhere. Ideal for low, colorful hedges; well suited to ranch-type homes. 12-15 in., Field-Grown Plants, \$1.95 each; 2 for \$3.75; 4 for \$6.95, postpaid.

▶ Everblooming BLEEDING HEART

"BOUNTIFUL". **2201.** (Plant Pat. No. 1198) A remarkable new hybrid somewhat resembling Plumy Bleeding Heart, but much superior in size and abundance of flowers. A 2-year established plant will produce as many as 30 to 40 flower stems at a time. Blooms in May, and again in summer and early autumn. The lovely fuchsia-red flowers are borne on stalks 18 to 20 inches tall. Handsome blue-green foliage forms a clump 18 inches in diameter. Perfectly hardy; does well in any well-drained soil; prefers a sunny location. Be sure to include this new Bleeding Heart in your spring planting. \$1.25 each; 2 for \$2.40; 4 for \$4.40, postpaid.

DOUBLE KERRIA JAPONICA ▶

1448. A splendid plant for the sunny border; vigorous growing and prolific blooming. It grows 4 to 5 feet tall, of bushy habit with many bright green stems which are attractive all winter. The double, ball-like flowers are golden-yellow and bloom all summer. They are excellent for cutting; last well in water. 2 Yr. Plants, \$1.25 each; 2 for \$2.40, postpaid.

Creeping ... DAINTY COLORFUL **Phlox** Phlox Subulata

Masses of dainty, colorful flowers completely cover the plants all through early spring. A perfect plant for terraces, banks, borders, walk edgings, the rockery; also invaluable for carpeting bare spots. Grows scarcely 4 inches tall. The moss-like foliage stays green all winter. Hardy, easy to grow. Plant 1 foot apart each way to make a dense ground cover in a short time. Soil should be dry and sandy and not too rich. Plant in full sun. Your choice of colors:

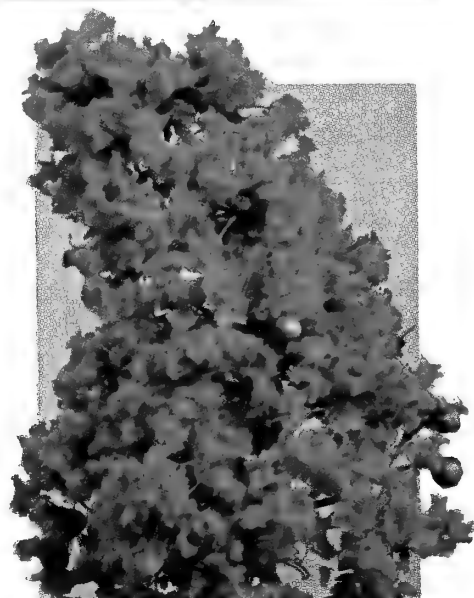

- 2180. ALBA**, pure white.
- 2182. LAPHAMI**, beautiful lilac blue.
- 2184. MOERHEIMI**, charming pink.
- 2186. ATROPURPUREA**, deep carmine red.

GIANT *Pacific Hybrid* HARDY NORTHERN GROWN DELPHINIUM

The elegance and beauty of this marvelous new strain of Hybrid Delphinium almost defies description. Great stalks, 3 to 5 feet tall, bear enormous flower spikes heavily laden with individual flowers. Each flower is exceptionally large, 2 to 3 inches across, and perfectly formed. The blooms are single, semi-double and double. Colors are exquisite. Plant in groups of four for best effect.

BLACK KNIGHT. 2122. Large flowers of the darkest royal violet shades. White bee. The individual blooms are beautifully formed and richly colored.

CAMELIARD. 2126. Clear, soft lavender with white bee. Very large, round florets of perfect form.

GALAHAD. 2124. Giant glistening pure white flowers with white bees. Florets often reach three inches in diameter and are heavily textured. Blooms are carried on 5- to 6-foot stems.

GUINIVERE. 2129. Light pink-lavender self with white bee. Excellent branching habits; beautiful large blooms. Long, graceful spikes.

SUMMER SKIES. 2128. As beautiful as the name indicates. The blue is the blue of a summer sky and the white bees represent the fleecy clouds. The large individual florets are beautifully formed and carried on tall stiff stems.

65c each; 2 for \$1.20; 4 for \$2.25; 8 for \$3.95, postpaid.

Exciting New Astolat PINK DELPHINIUM

2130. We are pleased to offer this exciting new series of Delphinium. The colors range from palest pink through shades of lilac-pink to raspberry-rose; all with contrasting black or fawn-colored bees. You'll like this new series. They make a gorgeous display when planted in groups by themselves; also blend beautifully with other Delphinium varieties.

The plants have the same vigorous habit as other Pacific Hybrids. Florets are very large, on long well-filled spikes. Tall, strong, whippy stems. Be sure to order some for your spring planting. 75c each; 3 for \$2.19; 6 for \$3.98, postpaid.

GIANT CANNAS

THE PRESIDENT. 2360. Large, well developed flowers of a bright, glowing red. Blooms freely; makes an excellent showing from early summer until frost.

CITY OF PORTLAND. 2352. The flowers are rounded; the trusses nicely formed; the petals broad. The color is a bright, luminous pink. Lovely green foliage.

YELLOW HUMBERT. 2358. Large, showy blooms of golden yellow heavily flecked with red. The flower clusters are superb, contrasted with rich green leaves.

KING HUMBERT. 2356. Brilliant scarlet-orange flowers, of excellent size and quality. Purple-bronze foliage. Makes a striking display all summer.

RICHARD WALLACE. 2354. Beautiful large, well-formed flowers of golden yellow. Luxuriant deep green foliage. Grows 4 feet tall.

MT. SHASTA DAISY

2034. Beautiful new double-flowering Daisy that will add distinction to your garden. Pure white blooms with high tufted center and a double row of guard petals, are produced in abundance from spring until freezing weather. Flowers come singly on tough, wiry 24-inch stems. Always showy in mass plantings and desirable as cut flowers. Plants are very vigorous; an improvement over older varieties. 70c each; 3 for \$1.95; 5 for \$2.95, postpaid.

BLEEDING HEART

2202. (Old Fashioned Bleeding Heart) Bears numerous rosy-red, heart-shaped, pendant blossoms on long, arching stems. Plants are hardy; bloom over a long period. Ornamental foliage makes it desirable for borders and floral arrangements. A great favorite in generations past and still very popular. Grows about 2 ft. tall. You will enjoy its graceful beauty both in the garden and in bouquets. \$1.00 each; 2 for \$1.95; 4 for \$3.65, ppd.

AMERICAN HYBRID RUFFLED DOUBLE

Ballerina Begonias

New Flower Sensation! Enchantingly Beautiful!

Never have we seen Tuberous Begonias so excitingly different, so incomparably beautiful. The flowers are extra large, often measure 6 inches and more across — they are truly supreme in vigor and perfect form, with infinite variations of ruffles, frills and scallops.

Be first among your neighbors to grow Emlong's new Ballerina Begonias. Plant them in shady spots and on the north side of the house — they'll bloom this summer and put on a continuous display of beauty right up to frost! Your choice of colors: **2816, Dark Red; 2817, Pink; 2818, Copper; 2819, White; 2820, Yellow.**

DOUBLE PICOTEE BEGONIAS

These are the fascinating two-toned Begonias. The flowers are exquisite in form, full centered with interesting picoteed petals edged in contrasting color. Grow them the same as other Begonias — let them bring sparkling color and beauty to those dull, shady garden spots! Use them for colorful display in entrance planters and beneath picture windows — they'll shine as conversation starters.

For earlier bloom, start bulbs indoors and transplant when danger of frost is past. Easy to grow. Will bloom for you this summer, from June until frost. Your choice of the following colors:

2822, White with Pink Edge 2824, White with Red Edge
2826, Salmon with Scarlet Edge

HANGING BASKET BEGONIAS

The beautiful weeping or hanging variety of Begonia. Blooms with fabulous freedom, producing hundreds of flowers all summer long. Easily grown in hanging baskets or window boxes. Give them a corner of the porch, patio or terrace, sheltered from direct sun and strong winds — they'll return a lavish display of gorgeous blooms throughout summer.

For a longer blooming season, start bulbs indoors now. When danger of frost is past transfer them to outdoor location. You will be delighted with their ability to transform a dull spot into a lovely floral bower. They are perfect for shaded window boxes and rock gardens, too. Choice of colors: **2840, Red; 2842, Pink; 2844, Orange.**

HUGE 'football' mums

Star Performers for Your Garden!

These are the glamorous "football" Mums that produce magnificent blooms up to 8 in. across! You'll prize them for corsages, bouquets, and as the "stars" of your fall garden.

Recent developments in large blooming varieties now enable us to offer garden varieties that compare equally in size with greenhouse-grown Mums, and the range of colors is much greater. The varieties listed on this page are all recent GRAND MERE INTRODUCTIONS. They have been selected for their beautiful colors, large size and early blooming habit. Perfectly hardy, vigorous growing plants that will produce huge, exhibition blooms if disbudded to one bloom per stem. And they'll repeat their performance year after year. (Propagation rights reserved.)

CHEERFUL. 2274. A loosely incurving bloom of lemon yellow. Medium tall with good cutting stems. Of exhibition quality.

COURTESY. 2276. Very beautiful 6 to 8-inch blooms; reflexed petals of peach overlaid with apricot-pink shading, color becomes more pronounced as the weather becomes cooler.

FASHIONABLE. 2278. 6-inch blooms of bright cerise-purple make a gorgeous display. Spiky petals, slightly reflexing.

FREEDOM. 2279. Extremely double, deeply reflexing blooms of pure white. Huge 6-inch blooms. Vigorous and frost-resistant.

JACKPOT. 2280. 4-inch blooms of deep gold. Fully double, incurving decorative. Erect, stiff branches.

JAMBOREE. 2281. A large, deep red reflex with pointed petals. Plant medium tall, good healthy foliage.

RECREATION. 2282. Incurving, 6-inch blooms of deep rose-pink with slight gold shading; outer petals reflexing.

REFRESHING. 2283. Gorgeous 7-inch cactus blooms of rich golden-bronze. Plant is medium tall and very free flowering.

SNOW LADY. 2284. Fully double decorative blooms of white with greenish cream center. Rounded petals form 4-inch flowers.

VELVET MARVEL. 2285. Huge, 4-inch royal purple blooms. Rounded petals, deeply reflexing and very double.

TREE PEONIES

Truly a King of Flowers!

In the gardens of the Ming Emperors, where they have been grown for a thousand years, Tree Peonies have been called "The Imperial Flower of China" and also "The King of Flowers." In full bloom, the plant is simply "loaded" with 8-inch king-size flowers of exquisite form, a texture as fine as silk, and incomparable fragrance.

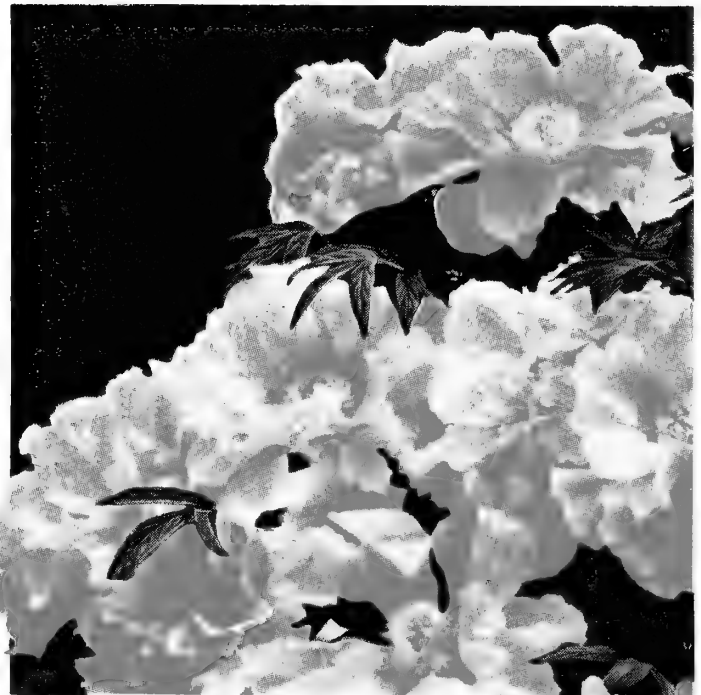

Tree Peonies, for all their exotic beauty, are amazingly easy to grow. They flourish in any climate and in any good garden soil. They are extremely hardy, long-lived and disease-resistant. Unlike herbaceous sorts, these woody plants do not die back to the ground in winter. They seldom grow more than 4-6 feet tall, but spread gracefully, growing larger and more beautiful each succeeding year. A single plant may be used as the focal point of your garden. A sunny, protected location is preferred. Do not cut back any woody branches; simply remove the faded flowers to encourage setting of buds for the following season.

At these astonishingly low prices, you will want several plants for your garden this spring. Order early while the supply lasts. We offer the following colors: **RED, 2552; PINK, 2554; PURPLE, 2556; WHITE, 2558.**

Hybrid Cattleya Orchid

Now You Can Grow Your Own Orchids

HYBRID CATTLEYA ORCHID PLANTS

2863. Think of it! Now you can grow the most glamorous of all flowers right in your own home! Contrary to popular belief, ORCHIDS ARE EASY TO GROW. They do not require a tropical climate, greenhouse, or a special room. They are not delicate, fussy plants that need coddling. Simply give them thoughtful care (according to the instructions) and they will flourish with outstanding vigor and produce huge, full, circular blossoms with gigantic fringed lips — just like the exquisite, expensive corsage Orchids seen in flower shops.

It's a Thrilling Experience to Own a Blooming Orchid Plant!

Emlong's are offering BLOOMING-SIZE Hybrid Cattleya Orchid plants. These are strong front divisions of mature plants. The blooms vary as to color, but generally are lavender, or white with purple lip. We supply large plants, ready for 4-inch pots. Complete growing instructions and Osmunda potting medium are included. Growing Orchids can be a fascinating and rewarding hobby! Be first among your friends to enjoy this thrilling new experience. Our supply of plants is limited — order yours today.

ORCHID PLANTS by Color

For you who want blooms of a specific color, Emlong's now offer Orchid plants by color. These are Hybrid Cattleya Orchid plants, which produce those exquisite large blooms, so much in demand for corsages and floral decoration. Choose colors to suit your personality, your home decor, or special occasions. We supply strong, blooming-size plants, ready for 4-inch pots. Growing instructions and Osmunda potting material included. Your choice of colors: **Lavender, 2864; White with Yellow Throat, 2865; White with Colored Lip, 2866.**

OSMUNDA FIBER

120. The most successful potting medium for Orchids. Provides the correct measures of both aeration and drainage. The best potting material for replanting your Orchid plants and divisions.

1 Pkg. Fiber (enough to repot into 4-inch pots)

\$1.25 postpaid.

GARDENIA VEITCHI

2070. (Cape Jasmine) Enjoy this exquisite flower indoors or out; on terrace or in sun-room, it brings a touch of exotic beauty to any setting. The flowers are creamy-white, large and of waxy texture; surrounded by luxuriant, rich dark green foliage; richly perfumed. Beautiful the year around. Excellent for corsages. **3 in., pot plants, \$1.25 each; 2 for \$2.40, postpaid.**

PASSION FLOWER

2088. (Passiflora Caerulea) Magnificent, 4-inch flowers, pink with crown of purple and white. Emblematic of the Crucifixion. Plant is vigorous growing, tendril climbing vine. Blooms from early summer to late fall. Grows 10 to 20 feet tall. Not hardy in northern sections; can be potted for indoor culture over winter. Flowers are delicately fragrant; will bloom indoors, too. **95c each; 3 for \$2.50; 6 for \$4.50, postpaid.**

OUTDOOR FERNS

Valuable for shady spots where flowers and grass won't grow. Ferns do well on north side of house and under trees. Excellent for naturalizing; not bothered by tree roots.

OSTRICH FERN. 2580. A luxuriant sturdy plant; for deep or partial shade.

MAIDEN HAIR. 2581. Thrives in shady spots. Lovely feathery foliage; grows 1 ft. tall.

SENSITIVE. 2582. Succeeds in sun or shade. Good for boggy spots. Height 1 ft.

LADY. 2583. Finely cut fronds. Does well in moist rich soil; sun or shade. **70c each; 2 for \$1.30; 4 for \$2.40, postpaid.**

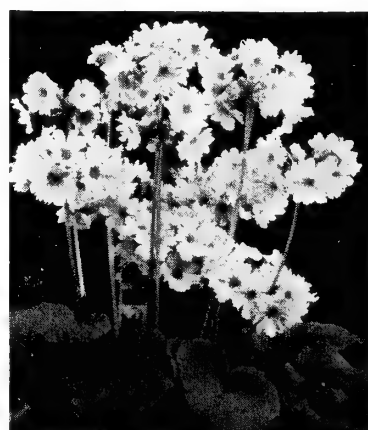

Dainty LILY-OF-THE-VALLEY

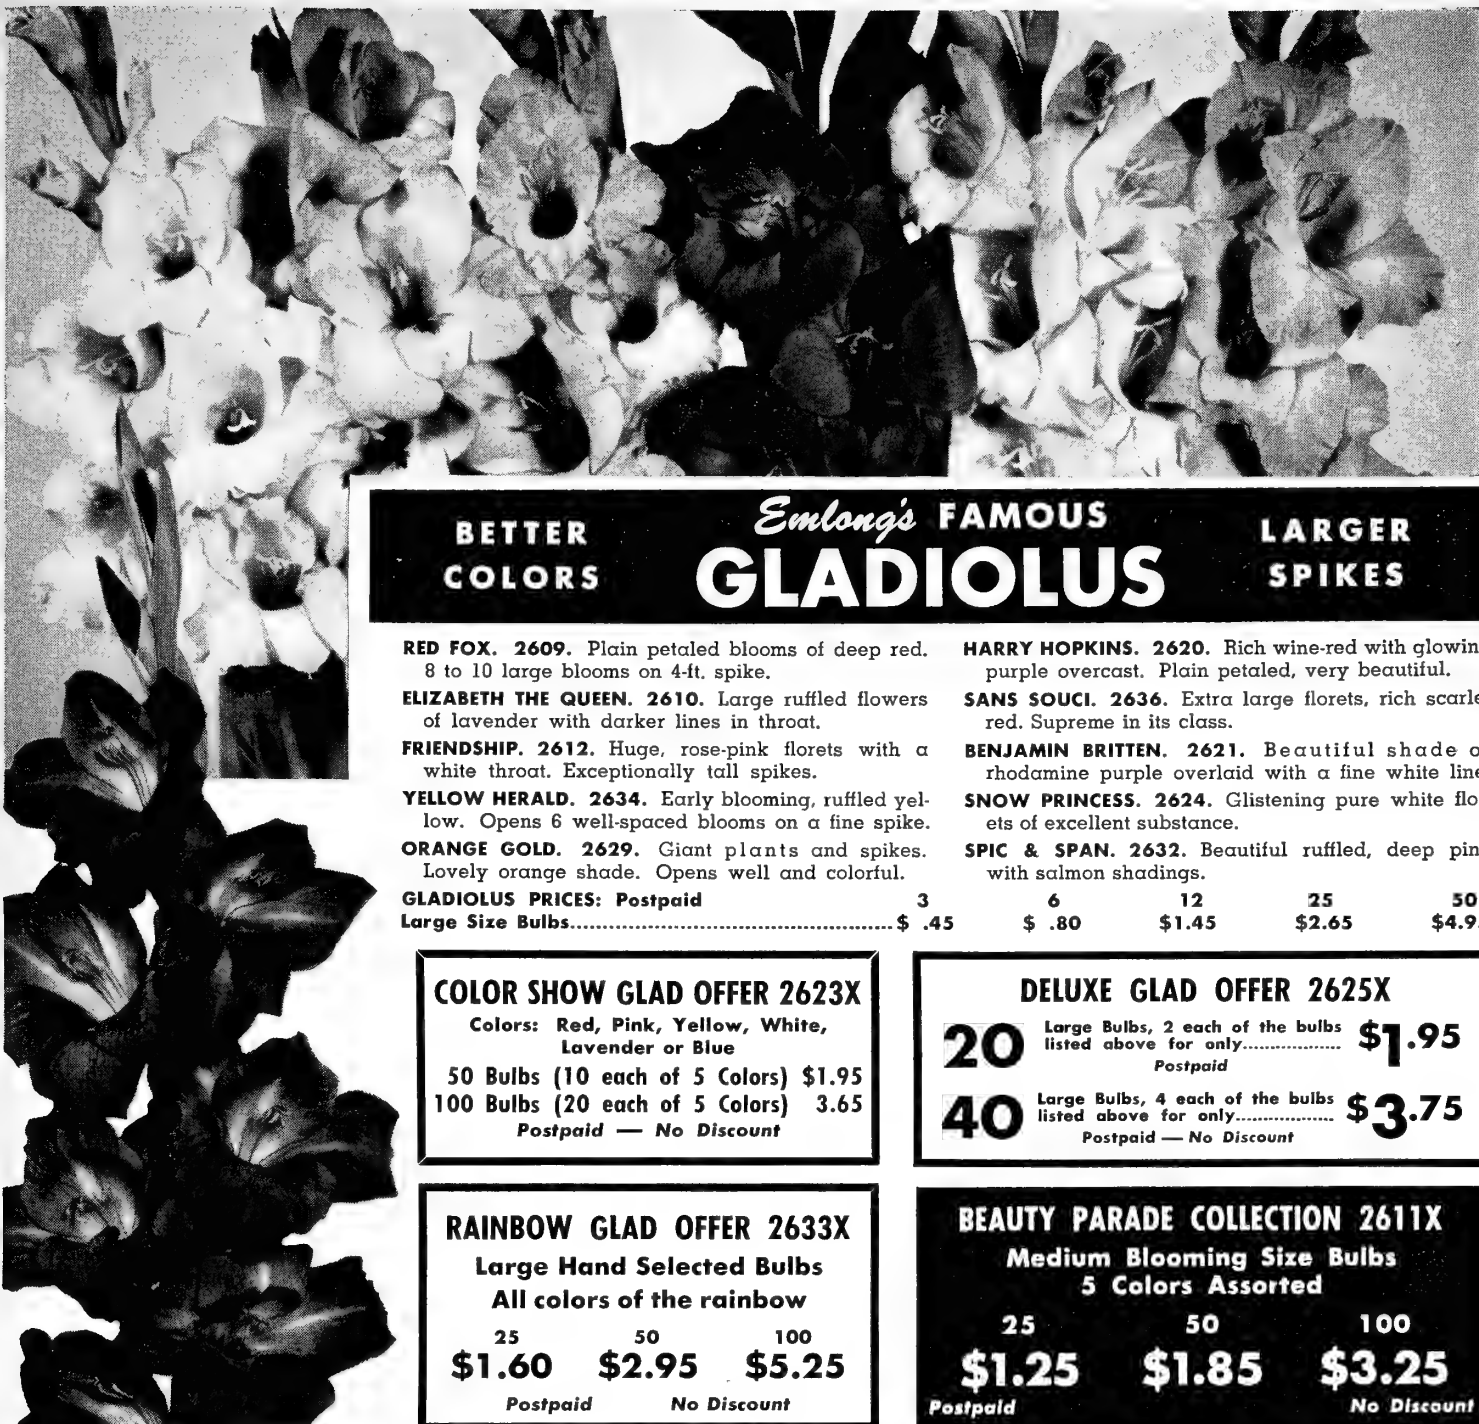

2064. Everyone loves these delightfully fragrant white flowers. The exquisite tiny, waxy-white, bell-shaped blossoms hang from bold, strong 10-inch stems. Attractive green foliage is ornamental throughout the season. The plants are prolific growers and spread rapidly. If given reasonable care, a bed of them will produce beautiful flowers in abundance for a lifetime. They thrive in either sun or shade, wet or dry soil. **2 for 65c; 5 for \$1.35; 10 for \$2.35, postpaid.**

Pretty PRIMULAS

2072. (Hardy Primrose) One of the most colorful of the early flowering, hardy perennials. Plants prefer a damp, shady location but may be planted in borders or rockery where light shade is obtained. The flowers are borne in clusters atop 8-inch stems, well above the broad-leaved foliage. Individual flowers are as large as a half-dollar. Bloom during May; come in a wide range of bright colors. A fine addition to the garden for hard-to-fill shady spots. Plant 4 to 6 inches apart. **75c each; 3 for \$2.10, postpaid.**

Pink Lythrum

Plant Emlong's **PERENNIALS** PAINT YOUR GARDEN WITH COLOR

PINK LYTHRUM

2066. An excellent summer flowering perennial. The plant grows to height of 3 feet with flower spikes 12 to 18 inches long, making a very showy display. Each plant bears dozens of spikes covered with bright pink flowers, held proudly above the dense foliage, through late summer. Fine for shaded areas and around pools. Does well in dry weather, but comes into perfection in a moist location. Very substantial and easy to grow; will thrive in ordinary garden soil. Very hardy. A fine cut flower and very effective in bouquets. **70c each; 3 for \$1.95, postpaid.**

Foxgloves

HYBRID FOXGLOVES

2046. Beautiful "wedding-bell" flowers in a wide range of solid and two-tone colors, with dotted throats. Flower heads are 2 to 3 feet long, thickly clustered with large bell-shaped blossoms. For continuous bloom, nearly all summer, cut off old stems when flowers fade. A mass planting in beds or border will produce a truly charming effect. They may also be used for a shady border or woodland garden. **55c each; 3 for \$1.60, postpaid.**

DAINTY PINK CORALBELL

2048. (*Heuchera*) Charming coral-pink, bell-shaped flowers produced on wiry stems 2 feet tall. The plant forms a mound of geranium-like leaves close to the ground, from which the stems arise carrying the blossoms in graceful panicles. An ideal cut flower and border plant. Blooms from May until September. **70c each; 3 for \$1.95, postpaid.**

BLUE MOON ASTER

2080. (*Stokesia*) Immense, 5 to 6 inch flowers of exquisite light blue are borne on upright, stiff stems 12 to 18 inches in height. It is of easy culture and flowers throughout the summer and autumn until stopped by a hard frost. Will thrive in sun or partial shade; easy to grow. An excellent plant for forefront of the border. Vigorous growing and free flowering. **55c each; 3 for \$1.60, postpaid.**

COLORFUL VIOLAS

2084. Often called "Hardy Pansies", these enchanting little blossoms appeal to all who love flowers. The plant grows 6 to 8 inches tall, will thrive anywhere, and blooms from early spring until frost. A perfect plant for low borders and for masses of color in the rock garden. Assorted colors only. **55c each; 3 for \$1.60, postpaid.**

ORANGE BUTTERFLY PLANT

2068. (*Asclepias*) Sweet-scented, 3 to 4 inch flat clusters of the brightest orange flowers you have ever seen. Attracts butterflies. The plant is dwarf growing and very hardy; withstands severe winters and hottest summers. Very free flowering from July to fall. A startlingly vivid and splendid color addition to the perennial border and for growing in front of shrubbery. Lovely for cutting. **55c each; 3 for \$1.60, postpaid.**

BLUEBIRD VERONICA

2082. The aristocrat of the perennials! The heavy flower spikes are completely studded with intense, lustrous deep blue blossoms. Blooms freely, providing a fine display from midsummer through fall. The sturdy, 12 to 18 inch flower spikes are fine for cutting and very effective in bouquets. This hardy plant is indispensable for the perennial border and a quantity of them should be included in every garden. **70c each; 3 for \$1.95, postpaid.**

WHITE FEVERFEW

2042. An attractive, medium tall plant. It has finely divided leaves and small, double white flowers on stems 12 to 18 inches in height. Bears a profusion of bloom throughout the summer. Will grow freely in ordinary well-drained soil. Plant one foot apart in sunny border. A group of these make a most effective display in border planting. The long-lasting flowers make lovely bouquets in themselves, as well as in combination with other summer perennials. **55c each; 3 for \$1.60, postpaid.**

LARGE FLOWERED VARIETY — SPICY FRAGRANCE

For Gay Borders, Lovely Bouquets and Corsages

The lovely perennial Carnation Grenadin comes in 5 beautiful colors:

2110. Golden Sun, glowing yellow.

2112. Ruby, deep maroon red.

2116. Scarlet Prince, bright scarlet crimson.

2114. Purity, pure white.

2118. Triumph, lovely deep pink.

Now you can have Carnations as large and beautiful as the greenhouse variety right in your own garden! Plant them in solid beds, borders or in groups and you'll have an abundance of colorful, delightfully fragrant blooms all summer and at intervals through fall. Grow 18 to 20 inches tall. Do well in ordinary, well-drained soil. Easy to grow. **60c each; 2 for \$1.10; 5 for \$2.25, ppd.**

CALLA LILIES

Delightful and unusual summer-flowering bulb. Tall, stately plants with beautiful trumpet-shaped flowers that you will grow with pride and pleasure.

PINK CALLA. (Rehmanni) **2730.** The pink or rose Calla. Sweetly scented. A rare species.

YELLOW CALLA. (Elliottiana) **2732.** Deep golden yellow. Green foliage spotted white.

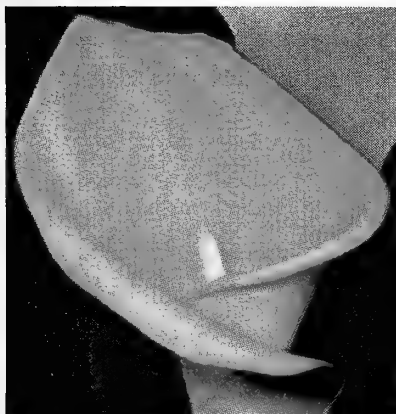

WHITE CALLA. (Alba Maculata) **2734.** White with crimson blotch; leaves spotted silvery white.

IVORY CALLA. (Ethel Roosevelt) **2731.** A rare variety producing pale yellow flowers.

79c each 2 for \$1.49 Postpaid

Fancy-Leaved CALADIUMS

The magnificent large leaves of the Caladium, with their brilliant and interesting color variations, produce a truly stunning effect wherever grown, and for table decorations they are unequalled. Bulbs started indoors in January and February make showy plants for Easter and Mother's Day, or plant in the garden in April and May for a continuous foliage display from late spring until frost. Dig bulbs in fall and use again the next Spring. Plant in full sun or light shade where they will perform satisfactorily all summer.

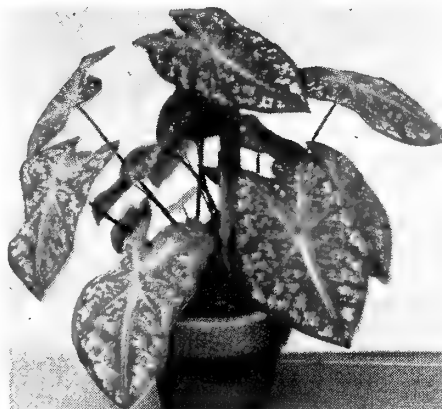

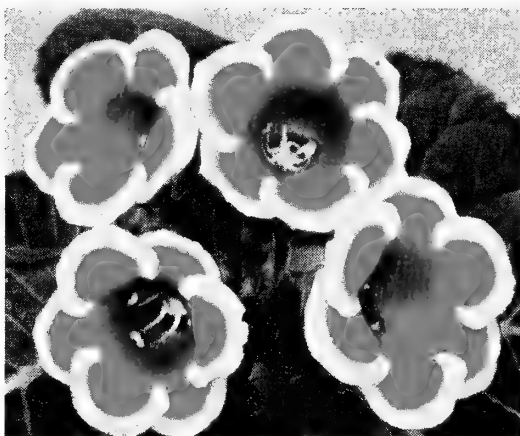

CANDIDUM. 2740. Snow-white leaves with green veins and network; narrow green border.

RED FLARE. 2742. Dwarf growing. Large red center, green border.

LORD DERBY. 2744. Transparent rose; dark green ribs, green edge.

69c each; 2 for \$1.29; 6 for \$3.59, postpaid.

SPECIAL OFFER — 3 Fancy Leaf Caladiums....\$1.89, ppd.

ASTILBE

A brilliantly colored perennial with attractive, branched, feathery flower heads. This is one of the easiest Perennials to grow, as it is not particular as to soil. In June and July, exquisite 18-20 inch long, plummy wands of feathery character and brilliant coloring appear. As roots age, stems become more and more numerous and more flower plumes appear. Plant in full sun or in semi-shade. Blooms last over a long period, providing a vivid splash of unusual color in the garden. Specify color wanted.

FANAL. 2018. A feathery spike of intense, rich red. Blooms last over a long period.

GLADSTONE. 2017. Lovely pure white, strong growing and free flowering.

PEACH BLOSSOM. 2019. Beautiful dense, feathery plumes of light rose.

95c each; 2 for \$1.79, postpaid.

"The Miracle Plant Food"

RA-PID-GRO

**Contains Vitamin B₁ and B₂
Plus 11 Other Plant Food Elements**

82. Ra-pid-gro is so easily prepared for use. Just add water at the rate of 1 pound of Ra-pid-gro to 22 gallons of water. Allow to dissolve and it's ready for use. Apply around the plants according to directions on the bag. For use on small numbers of plants, mix at the rate of a teaspoonful to a quart of water. Also very valuable for use when transplanting. Dip plants in solution for 3 or 4 minutes.

Stop Expensive and Tragic Transplanting Losses

By using a large tub or pail and mixing Ra-pid-gro with water at the rate of 22 gallons of water to 1 pound, you have a solution in which to dip the roots of the plants before setting out. If this is done, you will practically eliminate transplanting losses. Trees, shrubs, roses, evergreens, and similar plants should be set in the solution 3 to 4 minutes. Berry plants 1 minute. Vegetable and house plants just dip and remove. Grass and vegetable seeds should be sprinkled with Ra-pid-gro before sowing. Use the solution for watering after setting out plants or sowing seed.

Grow 'em Faster in JIFFY POTS

114. Start your bulbs, plants and flowers indoors in Jiffy pots and watch them grow faster and bigger! You'll be weeks ahead on spring gardening — plants will bloom earlier and longer! Jiffy Pots are made from sterile peat and balanced plant nutrients that develop roots so strong and healthy they actually grow right through Pot walls. When ready to transplant to the garden, PLANT POT AND ALL! Plants take root at once — no wilting or transplanting shock. Pots disintegrate in the earth, help condition soil and aerate roots. Hold soil on hard-to-plant slopes.

New RED RICH EVERBEARING STRAWBERRY

Red Rich

225. You've never seen plants so big and so vigorous, or berries so rich in bright red color clear through to the core! Developed in Minnesota, RED RICH is the result of a cross between Wayzata and Fairfax. It combines the best qualities of both parents, — thrifty growth, heavy yield, good plant making ability, wonderful honey-sweet flavor and firmness.

RED RICH ripens its first berries in June and keeps right on giving you heavy yields all summer, right through to fall. Luscious, big berries with firmness clear through that holds up exceptionally well in storage or shipping. They are unsurpassed for freezing too; won't mush up when thawed.

Each RED RICH plant shipment carries new "Space System" planting instructions. Follow these carefully; you'll be delighted with the results. Commercial growers and home gardeners alike can profit by planting RED RICH this spring. Supply is limited — order your plants today.

New EARLIDAWN

Earlier Than Premier — Frost Resistant

250. New introduction of the U.S. Dept. of Agriculture. The earliest of all to ripen. A nearly frost-proof variety that bears uniformly large berries of excellent quality. Vivid red color, firmness, sweet flavor and good quality make this a choice variety for fresh desserts, freezing, jams, jellies and canning. Profitable for marketing and commercial processing. Plants are thrifty, dependable, heavy yielders.

ALL POSTPAID PRICES

\$2.50 \$4.25 \$6.95 \$10.95 \$17.95 \$29.95

POCAHONTAS Flavorful

256. A recent introduction that is exceptionally vigorous and productive. Berries are very large and glossy, vivid red. Flavor is good and slightly tart. Excellent shipping and handling ability. Berries retain their firmness and fine appearance several days after picking. The plants are thrifty growers and very early produce big runner plants, making a good fruiting row. Fruit ripens a week later than Premier. It is one of the best all-purpose berries. Excellent for both commercial and home plantings. Try a planting this spring.

CATSKILL Excellent for Freezing

240. Generally recognized as one of the best midseason to late varieties. A cross between Premier and Marshall. It is a sure cropper, as it ranks next to Premier in this respect; rarely ever freezes. The berries are bright, shiny red and hold their color exceptionally well. Unequaled for flavor. Excellent for freezing, canning and shipping because the berries are firm and solid. A very hardy variety; does well in all Northern states. Vigorous and thrifty; a good plant maker. Always produce a large crop of top quality, delicious berries.

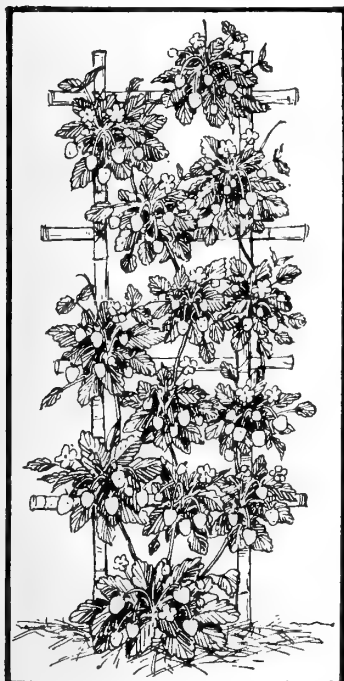

PAYMASTER New and Tasty

275. A real profit-maker! Outstanding mid-season variety. Paymaster is the result of a cross between Premier and Gem — has all the best qualities of both. Tests have proved it to be one of the highest yielders, fruiting over an extremely long season. It is very resistant to red stele and will produce a full crop under conditions where many varieties fail. The berries are glossy, solid red clear through, extra firm and highly flavored. Excellent for freezing and every home use. It is one of the most profitable market berries for large growers.

Sonjana CLIMBING STRAWBERRY

NEW! Unique and Amazing Plant Discovery!

280. Yes, it's true . . . Sonjana IS a c-l-i-m-b-i-n-g Strawberry. This amazing new plant grows 6 feet tall and produces berries all the way up! It grows just as pictured here . . . a beautiful, richly foliated plant that gives you enticing bright red berries, of firm texture, tempting fragrance and delightful taste. Imagine, picking such berries right off the vine this summer — without stooping, or the need to wash off dirt! Something else too . . . since Sonjana grows upwards, you don't need a lot of space to grow them — just 2 square feet of ground per plant!

Here's How You Benefit with Wonderful, Easy-to-Grow Sonjanas

You have delicious, sun-ripe Strawberries, picked fresh and clean from the vine, all summer and fall the first year . . . and from June until winter the second year. You have a beautiful ornamental to grace your garden . . . which requires little space and will live for years. You have an intriguing "conversation piece" that will interest and delight your family and friends. The plants may be trained on poles, trellises or wire netting . . . straight up, or diagonally in criss-cross fashion.

Sonjana Climbing Strawberry is an origination of the German plant "wizard" Reinhold Hummel, and is named for his daughter Sonja. It is a hardy, vigorous growing perennial that will increase in beauty and productivity each succeeding year. Emlong's are delighted to be able to offer this remarkable new introduction to American gardeners. We expect an avalanche of orders. Our supply is limited, — avoid disappointment by ordering now!

The Perfect Border Planting

It's the spectacular new garden idea — Emlong's "Brilliant" Everbearing Strawberry Border — gives you thrilling new beauty for your garden PLUS loads of luscious, sweet berries! Now, with even the smallest yard, you can grow your own strawberries — no extra space is required. Plant Emlong's Brilliant Everbearing Strawberry plants along walks or driveways, around a terrace and along your flower beds. You'll be amazed how colorful they really are! Just imagine — a compact border of lush, glossy green plants covered with beautiful white blossoms and big, sparkling red berries all spring, summer and fall. The plants are so vigorous they begin to bear just a few weeks after they are set out and continue bearing from spring until fall. Enjoy fresh desserts all season and have enough berries for freezing, too! Order your plants today.

VIRUS FREE

ROBINSON - Best Late

270. Robinson is the only variety certified as Virus Free, by the Michigan Department of Agriculture which began the program in 1950. Completely healthy plants, selected from hundreds of samples, were propagated in strict isolation at the university farms. The resulting virus-free stock was then released to Michigan nurserymen who agreed to further propagate this stock under restricted conditions and definite cultural practices to maintain the virus-free characteristics. You as the grower planting these virus-free plants, need not be concerned with isolating them. Spraying and weed control, however, are good practices and should be carried on diligently in any strawberry planting.

One of the largest berries grown; 30 berries will fill a quart! Flavor is honey sweet. Berries are bright red, conical in shape and well colored to the center. Flesh is firm-textured and solid; excellent for canning and freezing. Plants are hardy and prolific; makes a good fruiting row on any soil; does well in the North. Ripens about two weeks after Premier. Bears heavily over a long period.

ALL PRICES POSTPAID

\$1.60	\$2.60	\$3.95	\$6.50	\$12.50	\$19.50

Premier EARLY →

The Dependable Strawberry

265. The best selling Strawberry from coast to coast. It is one of, if not the earliest berry to bear, yet resisting frost. The picking is best before other commercial varieties come into bearing, thus bringing "first-of-the-season" high prices. Plants are thrifty, vigorous growers and make a good fruiting row. The foliage is tough and unusually healthy. Blooms are covered and protected from frost by the foliage. Premier starts to ripen early and continues bearing heavily for a long period.

Berries are uniformly large; long, pointed in shape and bright scarlet-red; have a super-delicious flavor. Its deep heavy roots enable Premier to withstand dry weather and mature full size crops when many other varieties are a failure. Can be trucked long distances and still look fresh, bright and very appetizing. Wonderful for fancy dessert and canning. Perfectly self-pollenizing; drought-resistant. **Set plants in April and May. They will bear next year.**

Kardinal King

260. An outstanding variety. Produces record breaking crops and is considered the best late Strawberry. Starts to bear after Premier and continues through the late season, prolonging berry profits. Kardinal King berries are big, solid red, juicy and full of delicious flavor. Favored for fresh desserts, processing and freezing. Hold up well after picking and can be shipped long distances without losing their firm quality and attractive red color. The plants are thrifty, vigorous growers; make wide fruiting rows and always produce record breaking crops. Give Kardinal King a trial and you'll be convinced of its superior qualities as the outstanding variety for both home and commercial use.

Jumbo THE LARGEST STRAWBERRY GROWN

255. This exceedingly vigorous grower produces large quantities of berries which are extra large and the flavor is mild and sweet. Plants are strong, vigorous and very healthy; makes an excellent fruiting row. Berries are a very dark red. Berries may be picked when they reach the color of Premier, or allowed to remain on the plant until completely ripe. Not quite as early as Premier. Proven to be one of the heaviest yielding strawberries known and also a good plant maker. Due to its firmness and color, Jumbo is a very good shipper; keeps exceptionally well.

RICHLY FLAVORED OLD FAVORITE

245. Dependable midseason to late Strawberry which stands coldest and warmest climates and poorest soils. Plants are medium in size, long rooted, extremely vigorous, free from disease, and will make more plants than any other variety grown in the midwest. Plants make a solid fruiting row, and bear medium size, very dark red berries that are honey-sweet. Richest flavored in the Strawberry family. Favored for preserving, jam, jelly, etc. Self-pollenizing. Very productive.

Hardy Pecan Tree

HARDY PECAN

Large Thin-Shelled Meaty Nuts

912. This is the rapid-growing, young-bearing variety that can be grown successfully in Northern climates. The nuts are very large and thin-shelled with large, flavorful nutmeats; much in demand for baking, confections and eating fresh.

Nut Trees Are a Lifetime Investment

The Hardy Pecan is a beautiful, long-lived, strong growing tree and a dependable, prolific bearer. Makes a very profitable crop for commercial growers. The tree is also a fine ornamental, growing to a great height in the course of time. Starts bearing young and will produce bountiful crops of nutritious, delicious nuts year after year.

Thomas Black Walnut

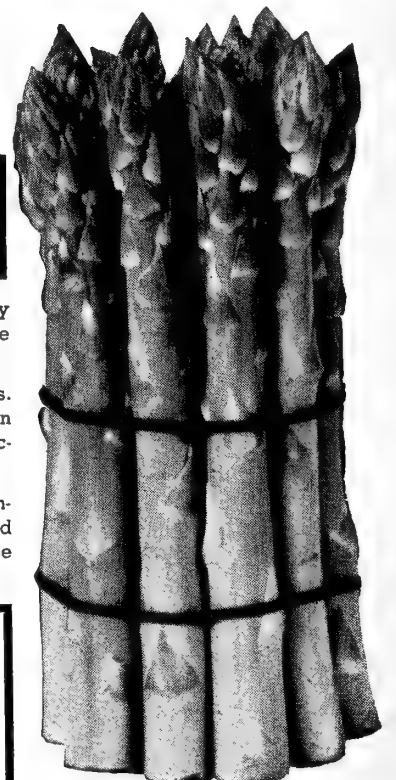

ASPARAGUS

EASY TO GROW GOOD FOR YOU

One planting of Asparagus lasts many years. Requires little care. Asparagus is always ready to sell early in the spring before other vegetables are ripe and always brings a good price. Emlong's home-grown roots are bright colored and of large caliper. Plant them during March, April and May.

PARADISE. 852. The new giant strain of Asparagus from California. Makes long, thick, very tender stalks. Grows quickly. Said to bear usable tips a year sooner than other kinds. Paradise retains its color when canned or frozen. Very profitable and very dependable for home or market. Rust resistant and very productive. A hundred roots will supply the average family for many years. Plant the same as Washington.

WASHINGTON. 854. Introduced by the U. S. Department of Agriculture, this has long been the leading commercial Asparagus. Produces large, tender, green tips. Mild, rich full flavor, very delicious. In great demand for shipping, canning and freezing. Plant the roots 12 inches apart in the garden. In the field rows can be 4 feet apart. 5000 roots plant an acre.

CHINESE CHESTNUT Mammoth Size — Blight Resistant

908. Wonderful new strain. Proven highly blight resistant in this country. Extremely hardy and vigorous. Trees are rapid growing, quick to bear and very heavy yielders. Trees produce nuts of fine flavor, sweet and are larger than those produced on the ordinary American variety. The meaty nutritious nuts are a favorite of everyone; always in demand for baking, confections and eating during the winter holidays. Trees grow about the size of an apple tree and are very decorative for lawn, providing good shade besides yielding an abundant crop of nuts each year. Bear young. Will thrive in any well-drained soil and require very little care once they are set out. For a profitable crop of nuts as well as beauty and shade, we recommend planting a few trees. Plant 2 trees for best results.

Plant *Emlong's* PLUM

RED GIANT

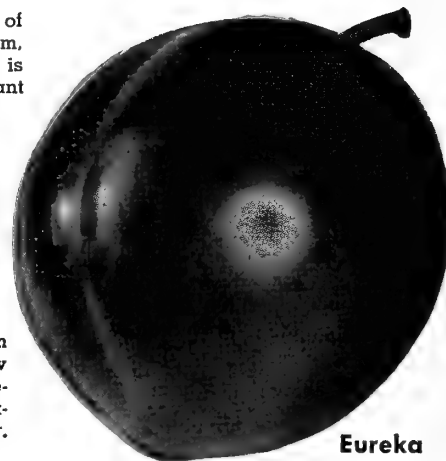

**An Amazing New Plum
Large in Size**

558. One of the most beautiful Plums. Roundish oblong in shape, the fruit often measures 2½ to 3 inches long, in clusters of 7 to 12 giant beauties on the end of each branch. Ripening early, Red Giant plums attain a deep glowing maroon red color, thickly overspread with pink bloom. Flesh is greenish yellow, very firm, fine and sweet. Red Giant is a wonderful shipper and canner. Plant 2 trees for best results. (Grown and sold only by Emlong's. Propagating rights reserved.)

Famous GREAT EUREKA

HEAVY-YIELDING QUICK-BEARING

552. The delicious flavor of Eureka is a combination of Plum, Apricot and Peach. The fruit is thin-skinned, juicy and pleasant to eat; separates easily from the pit. Eureka is known as the "Red Nectar" fruit because the juice is red and sweet. Trees bear young and produce enormous crops. Wonderful shipper and canner. Plant 2 or more trees for best results. (Emlong's propagating rights reserved.)

Eureka

GREEN GAGE

554. Tops in quality. The famous dessert Plum with the sweet-tart flavor. Large, greenish-yellow fruits are produced abundantly. Flesh is fine-grained, firm and juicy. Good for canning and eating fresh. Freestone. Ripens in early September. Trees are vigorous and thrifty. Self-pollenizing.

SUPERIOR — Semi-Dwarf, Young Bearing

562. One of the very best. Fruits are extra large and attractive; have beautiful wine-red skin covered with purple bloom. Yellow flesh is delicious, sweet and juicy; freestone. They peel like Peaches; make flavorful jellies, jam and preserves. Ripens in August. The fruits are good shippers and keep exceptionally well. The trees are extremely hardy and young bearing. Yield enormous crops every year. A money-making variety for commercial growers, and one that should be included in every home orchard. Plant 2 or more trees for best results.

TREES ENJOY THEIR FINE FRUIT

STANLEY PRUNE The Sweetest Prune Grown

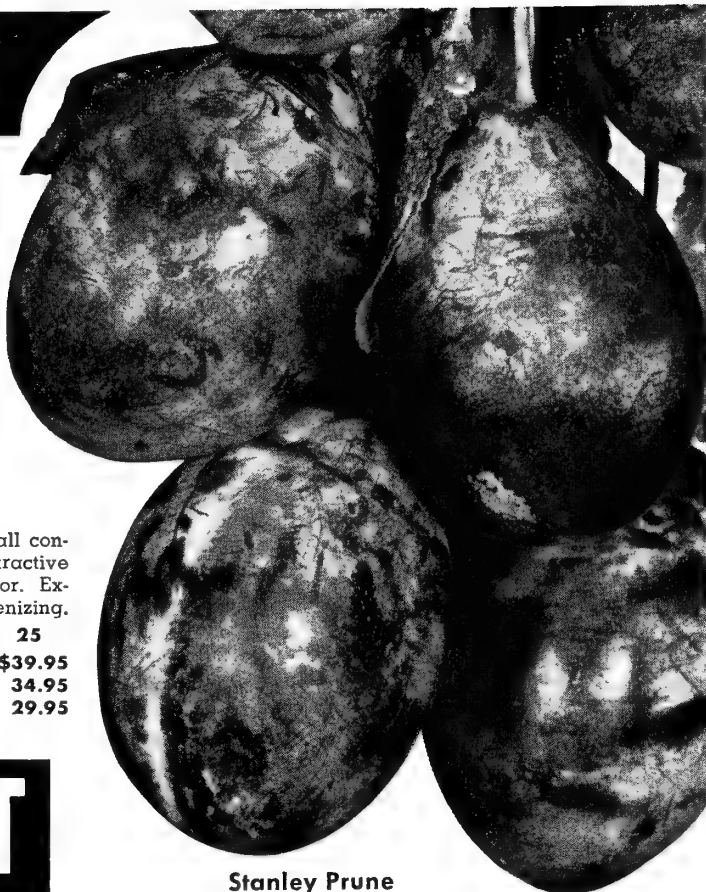

560. The "leader" of all Plums or Prunes offered today. It is the sweetest Prune grown and bears the quickest. Often starts bearing the second year after transplanting and yields heavily every year. Beautiful dark blue skin overspread with attractive bloom. Golden flesh so sweet, it needs little sugar for canning. Juice is wine colored and rich. Freestone. Ripens mid-season. Hardy, thrifty grower; adaptable to a wide range of soils. Ranks high for drying, preserving and dessert. Stanley Prune is a money-maker for commercial growers and an excellent variety for home gardeners.

ITALIAN PRUNE—A Favorite

556. Widely planted in all fruit growing sections. Succeeds under most all conditions of soil and climate. Large, oval-shaped, purple-blue Plum with attractive coating of blue bloom. Flesh is firm and golden, with good texture and flavor. Excellent shipper. Tree is hardy, very productive and bears regularly. Self-pollenizing.

NOVELTY FRUIT

Dwarf Wonder Lemon

DWARF WONDER LEMON

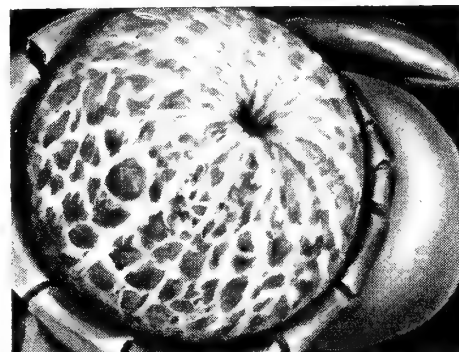

2872. Sometimes offered as Ponderosa Lemon. The most unusual plant ever offered for indoor culture. During the blooming season, several times a year, the plants are covered with fragrant, waxy-white flowers, followed by large lemons of excellent quality. 2 1/4 in. Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.

DWARF TANGERINE

2876. An exciting new plant that you will want to add to your collection. Small, deep-orange fruits, glossy green foliage and dainty, fragrant blossoms make this unique house plant an attraction the year around. 2 1/4 in. Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.

DWARF ORANGE

2874. Colorful, evergreen plant; easily grown in a sunny window or outdoors in summer. Bears loads of miniature oranges which are well colored up by late October and remain in good condition nearly all winter. Makes a compact, bushy plant with fragrant blossoms and lush foliage. 2 1/4-in. Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.

Dwarf Tangerine

PERSIMMONS

736. (Tane-Nashi) The Oriental Persimmon is an easy-to-grow, highly productive, young-bearing tree. Not only does it provide an abundance of delicious fruit but it is a beautiful ornamental as well. The golden-orange fruits are sweet as honey with a rich, spicy flavor and are highly prized for making delectable preserves and jelly. Ripen about in August. The tree is hardy and adaptable to a variety of soils. Culture is the same as for other fruit trees. Can be planted anywhere in the garden — you'll enjoy its fruit, shade and beauty! 2-3 ft., field-grown plants, \$2.25 each; 2 for \$4.25; 4 for \$7.95, postpaid.

TROPICAL COLLECTION 2877X

Everbearing DWARF FIGS

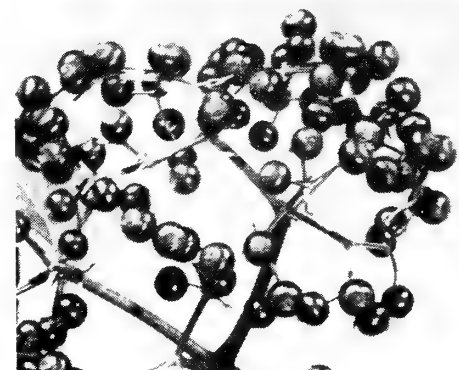

640. Sure you can grow them! Have delicious sweet, juicy Figs from your own garden. Plants bear first year they are set out. For sections north of Philadelphia, we recommend growing them indoors in tubs. 2-3 ft. trees, \$1.50 each; 2 for \$2.85; 4 for \$5.45.

ADAMS ELDERBERRY

734. A greatly improved variety of Elderberry, producing larger berries and fruit clusters. The purplish-black berries are one of the richest sources of Vitamin C. They make a superior jam and are also widely used for pie and wine making. The plant is ornamental and makes a nice addition to the shrub border, can also be planted in groups or single specimens. Hardy and rapid growing; about 6 to 10 feet at maturity. 2-Yr., field-grown plants, \$1.20 each; 2 for \$2.20; 4 for \$3.95, postpaid.

Dwarf Figs

Adams Elderberry

Interlaken

The Favorite Garden and Market GRAPES

INTERLAKEN SEEDLESS. 816. A new variety producing rich golden yellow fruit with medium-size berries that are very sweet. Flesh is meaty, solid and crisp. Can be eaten whole like California Grapes. Ripens a full month ahead of Concord. A strong growing variety, bears young, heavily and regularly. Deliciously flavored for home use and an excellent Grape for commercial planting.

	Each	2	5
Selected 2-yr. Vines.....	\$1.50	\$2.75	\$6.50

GOLDEN MUSCAT. 802. Wonderful new golden yellow Grape. Very large, compact clusters with large, juicy, sweet and tender berries. Has tangy Muscat-like flavor; desirable for fancy dessert. For home use and as a commercial Grape it cannot be beat. Vine is vigorous and very productive.

	Each	2	5	10
Selected 2-yr. Vines.....	\$.75	\$1.40	\$3.25	\$6.25

SENECA. 804. The new skinless Grape. Large, compact bunches with golden yellow, oval shaped berries. Texture firm and the skin can be eaten. Flavor is honey-sweet and aromatic. Ripens early. Hardy and vigorous; grows anywhere. Keeps well on vine or in storage until late fall.

	Each	2	5	10
Selected 2-yr. Vines.....	\$.75	\$1.40	\$3.25	\$6.25

JUMBO. 814. A new and completely different variety. We believe Jumbo to be the largest grape grown — the individual fruits often maturing to the size of a plum. The color is a rich amber-red when ripe and the flavor extra-special. Makes one of the tastiest, sparkling-red jellies we have ever seen. The bunches are compact and very full, weighing one to two pounds. Vines are hardy; easy to grow.

	Each	2	5	10
Selected 2-yr. Vines.....	\$1.10	\$2.10	\$4.50	\$8.50

SENECA Bargain No. 813X

4 GRAPES, one each of the four new varieties listed above. A \$4.10 value for only **\$3.45**

CONCORD. 806. The leading big-crop, dark blue Grape. Flesh is juicy, sweet and tender, excellent flavor. Vine is a strong grower, very healthy, hardy and productive. Grapes keep a long time on vine and after harvesting. Fine for shipping, for cannery and winery trade. Excellent flavor. Usually bears second year. Ripens in October.

FREDONIA. 808. Very dependable blue-black Grape. Earliest to ripen. Vines are very disease resistant, vigorous and productive. Produces clusters of large size, cylindrical and very compact; berries are large, round and hang well to the bunch. Deliciously flavored whether eaten fresh or made into jelly or wine.

NIAGARA. 810. One of the most widely planted and best known white Grapes. Vine ranks with Concord in vigor and productiveness. Large, perfectly formed bunches of berries. Beautiful amber-green-white color. Rich aroma makes it a good seller. Tangy, muscat-like flavor. Excellent for all purposes.

CATAWBA. 812. Best of the red varieties. Fruit extra large; bunches compact and of good size. The only red Grape that has proved itself over the years to be the best for commercial planting and home garden.

Emlong's **RED** Raspberries

New **SEPTEMBER** — Two Crops in One Year

714. A superior new variety that bears a full crop of berries in June and another large crop in September. Berries are large, bright red, uniform in shape and of excellent quality. Keep well on the bush and after picking. Fruits ripen several days before earliest spring bearing varieties. Fall crop matures 2 to 4 weeks ahead of other fall varieties — thus avoiding failure due to early fall freezes. Plants are hardy, vigorous growing and increase rapidly.

New **DURHAM** — Large, Everbearing

711. Large, plump, juicy berries, free from seediness and full of delicious flavor, are borne until frost. The non-crumbling, red berries ripen down the cane so the foliage protects the late fruit. Plants are hardy, vigorous growing and increase rapidly. The full-flavored berries are delicious to eat fresh, canned or frozen. Its large size, firm berries also make this an excellent shipping variety.

INDIAN SUMMER — Everbearing

718. A tremendous sensation because of its giant size, delicious taste and appealing glossy red beauty. And, sensational also because it starts to bear early in the season and produces two big crops every year. Unusual thimble-shaped berries of appetizing red color, borne in large loose clusters. Every berry matures to full size. Berries are full flavored, sweet and very delicious. Ripens first crop in June; bears another in the fall. Ideal for quick-freezing and many culinary uses. Plants hardy and vigorous.

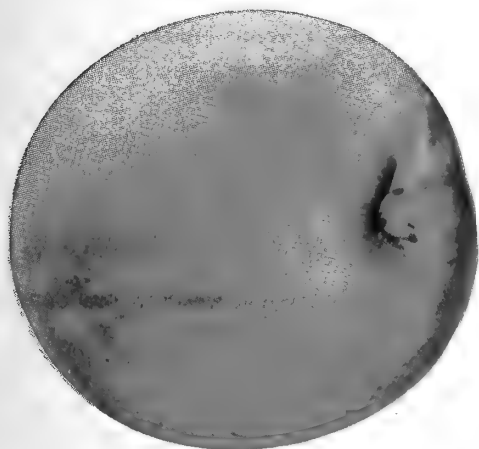

WILLAMETTE — Heavy Producer

716. One of the largest Red Raspberries grown! This splendid new variety is an Oregon origination. An exceptionally heavy producer. Berries are very large, conical in shape; very firm, dark red, medium acid. Fruit ripens midseason. Excellent variety for freezing, canning, table use and eating fresh. Its large size and firmness also makes this an excellent variety for shipping. Willamette is very vigorous and productive and has proven entirely hardy. Yields a good crop year after year.

NECTARINES

642. A delicious fruit, favored for eating fresh and canning. Resembles a Peach in shape and has the smooth skin of a Plum. It is also known as the "Fuzzless Peach". The fruit is large, red and very juicy with a flavor that is distinctive and extra good; freestone. Ripens with Elberta Peach. Can be grown wherever Peaches are grown; culture is the same. Plant two or more trees for proper pollenization. This luscious fruit should be in every home garden. A good money-maker for orchardists, too.

The New RED RHUBARBS

VALENTINE. 858. Deep bright red in color. Texture smooth and tender. Has a rich flavor with a slightly tart aftertaste. The Valentine is an introduction of the Ontario Horticultural Experiment Station and has taken the lead among the red Rhubarbs. Combining very high quality and richness of flavor, vigor and growth, the Valentine will soon be the standard by which all other Rhubarbs are measured. The beautiful red color is clear through; stalks are tender and very sweet. Retains its bright color in cooking. Very delicious for pies and sauce. Plant Valentine this spring and enjoy its fruit for years to come.
\$1.00 each; 3 for \$2.85; 6 for \$4.95, Postpaid.

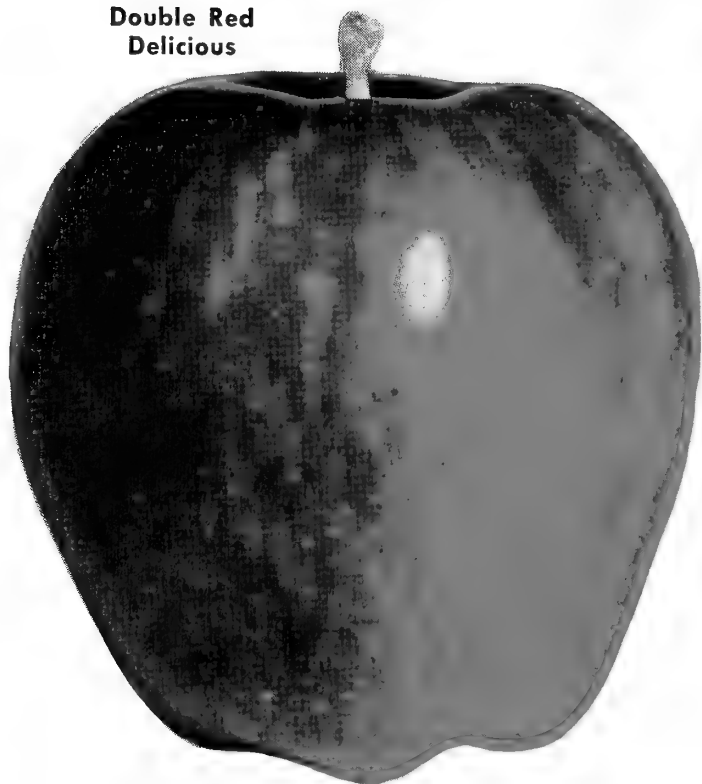

RUBY RED

856. Large, plump, red-in-the-center stalks of the sweetest Rhubarb that you ever tasted. Excellent for pies and sauce; stalks are tender and never stringy. Early spring fruit, quickly forms a large-clump. Hardy and easy to grow anywhere. Three

mature plants will supply the average family for year-
• 49 • round use. 95c each; 3 for \$2.75; 6 for \$4.75, Ppd.

**Double Red
Delicious**

DOUBLE RED DELICIOUS. 306. Truly King of the winter eating Apples. Very fine, solid-red strain of Delicious, resembling its parent in all characteristics except color. Ripens in October. The fruit is large, attractive solid red without striping. The flesh is highly flavored and stays crisp and juicy long after picking. Excellent shipper and keeper. One of the most popular eating apples and a big seller from coast to coast. It should be in every commercial planting and home orchard because of its outstanding qualities.

RED JONATHAN. 314. The favorite large, red Jonathan so popular with commercial growers. Has firm, superior keeping quality which makes it highly profitable for market. Flesh is tender, juicy and richly flavored; excellent for eating fresh and for cooking. Ripens in fall; keeps well all winter. Trees bear young and are very productive and long-lived. Hardy; thrives almost anywhere.

PLANT EMLONG'S Superior Northern Grown APPLE TREES

YELLOW DELICIOUS. 308. Queen of the late fall eating Apples. Similar in shape and size to Red Delicious, but color is golden yellow. Flesh is firm, crisp and juicy and deliciously flavorful. The big, richly fragrant, golden fruits are considered the finest of yellow Apples. Keep exceptionally well all winter without becoming mealy. Our large fruiting strain bears young and abundantly.

TURLEY WINESAP. 322. The best keeper of the solid all-red winter Apples. Ripens earlier than other Winesaps; colors on the tree to a bright, rich all-over red. Fruit is large, uniform and firm; flesh has excellent flavor, crisp and juicy. In big demand for shipping, storage, for drying, cooking and eating fresh. A perfect all-around Apple. Trees are thrifty and hardy, produce big crops every year.

RED MCINTOSH. 316. Emlong's large fruiting strain of McIntosh is a winner for flavor and quality. Bright red fruits of good size with white flesh. A fine juicy and highly aromatic Apple. Beautiful and a good seller. Heavy bearing, ripening in fall.

YELLOW TRANSPARENT. 324. (Lodi Improved Strain.) Always produces a big crop of tasty Apples for pies and cooking during summer. Hardy no matter how cold your winters. Thrives in all soils and bears quickly. A perfect pollinizer.

RED ROME BEAUTY. 320. An all-red strain of the old Rome Beauty. Highly prized for baking purposes. Trees are vigorous growing and yield heavy crops of large, evenly colored Apples that keep extremely well all winter.

CORTLAND. 304. (Fall) A shapely, big, round Apple which has won fame for its quick bearing and heavy yielding habit. Flesh is white, tender, sub-acid. Good to eat fresh or cooked; delicious pie variety. Hardy everywhere; an excellent pollinizer.

RED DUCHESS. 328. Popular early fall Apple. One of the best for cooking; makes wonderful sauce and pies. Fruit is round, solid red in color; flesh is crisp, juicy and flavorful. The variety is very hardy and will thrive everywhere.

KING SIZE APPLE TREES

Huge 6-7 ft. Trees. GAIN 2 YEARS! These large, sturdy trees will bring you a crop of fruit two years before those of ordinary size. They are expertly grown and worth much more than we are asking for them. At bargain prices while they last. Varieties: Red McIntosh, Red Delicious, Red Jonathan. \$3.00 each; 2 for \$5.75; 4 for \$10.95.

HYBRID BUSH CHERRIES

We are pleased to offer these 4 new varieties of Bush Cherries which we consider an improvement over the Hansen Bush Cherry. The fruits are larger and tastier. Budded on American Plum, the plants are better growers and should be hardy anywhere. In addition to their abundance of fruit, they make beautiful hedges or border plants.

BLACK BEAUTY

722. Newest of the Bush Cherries. Glossy, black maroon-red fruit. Juicy and tasty for eating fresh, pies and canning. \$1.98 each; 2 for \$3.79; 4 for \$7.29.

SIoux

720. Extremely large, 3/4" fruits. Shiny deep purple with greenish flesh. Sweet and juicy. Ripens late July. \$1.98 each; 2 for \$3.79; 4 for \$7.29.

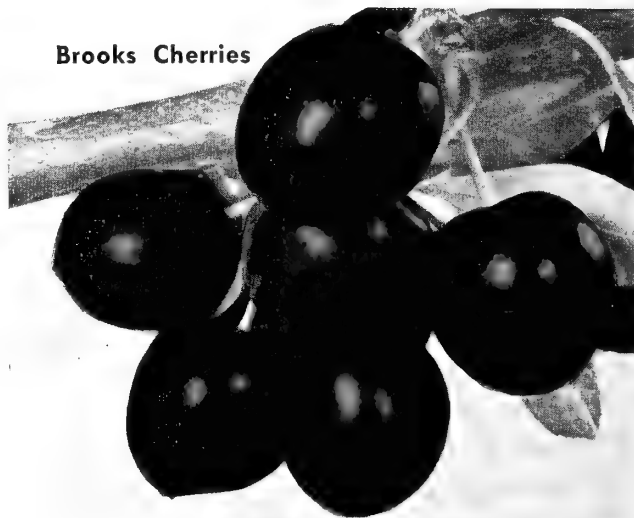

BROOKS

724. Fruit is dark red and nearly as large as regular cherries. Usually bears heavily the second year after planting. \$1.98 each; 2 for \$3.79; 4 for \$7.29.

GOLDEN BOY

726. Large, golden-yellow, luscious, mild-flavored Cherries. Enjoy them fresh off the bush and in a variety of desserts. \$1.98 each; 2 for \$3.79; 4 for \$7.29.

Brooks Cherries

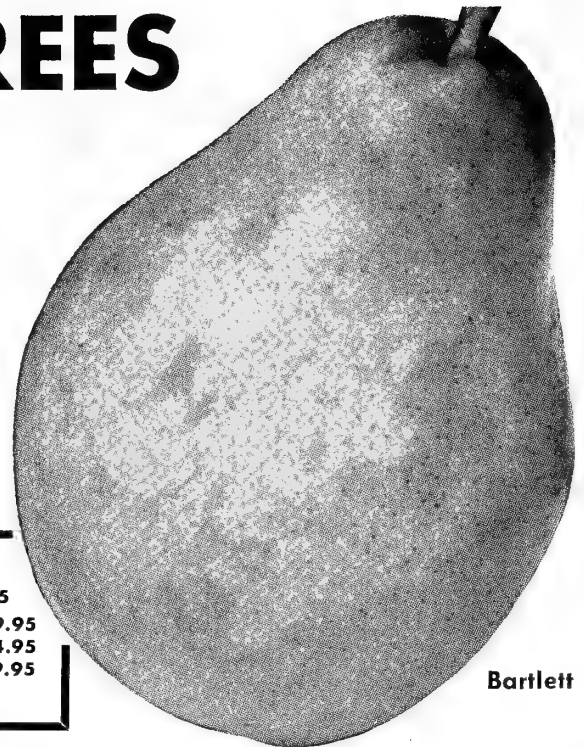

Outstanding PEAR TREES

BARTLETT. 452. The leading commercial Pear. Fruit is large, waxy yellow with red blush. Flesh is white, juicy; fine texture, superb flavor. Favored for fresh desserts, canning and summer storage. A proven money-maker for commercial growers and one of the most popular for home gardens. Plant Emlong's PRIDE-OMICH strain to ensure big crops of choice fruit.

SECKEL. 460. Often called the "Sugar Pear" because of its sweet, delicious flavor. Fruit is small but of highest quality and is favored for preserves and pickling. Ripens in late summer. Skin is very firm, yellowish-brown with red cheek; flesh white and juicy. Trees are young-bearing, hardy and blight-resistant.

BOSC. 454. There is no better flavored Pear than the long-necked Bosc, which is sold on the fancy fruit market at a handsome profit. Flesh is very firm, white and sweet, with delicious flavor and rich aroma. Ripens late September. Excellent shipper and keeper. Fruits are beautiful golden-russet color; always in demand for high-priced gift packaging.

CLAPP'S FAVORITE. 458. Large, uniform fruit with beautiful green skin, deeply blushed carmine-red. Flesh is crisp, white, juicy. Ripens August and September. An excellent all-purpose variety. Sweet flavor. Ships and keeps well. Succeeds in all sections. Hardy and a thrifty grower. Bears heavy crops year after year.

728. Famous everywhere for its attractive appearance, large size and extra good flavor. Berries are uniformly large, glossy jet black,

fragrant, sweet, juicy and almost coreless. Unexcelled for luscious pies and richly flavored jams, jellies and wines. The plant is exceptionally vigorous and hardy; withstands extreme cold and adverse weather. Succeeds in all sections. Plants are highly resistant to rust, and unequalled

Sensational New "SUMMER LONG" EVERBEARING PEACH

Fresh Peaches July to September

646. An everbearing Peach tree? That's right. Just imagine a Peach tree starting to bear about the 20th of July and continuing through the 25th of September. Have fresh Peaches all summer long from one single tree.

A Modern Fruit Tree for Your Garden

This Everbearing Peach is perfect for your garden. The "Summer Long" Peach has golden yellow flesh. It is a remarkable freestone Peach which has all of the excellent qualities of other Peaches and will produce tasty fruit from July until late September. Fruit is very delicious either for canning, eating fresh or for desserts and jams.

No Wasted Fruit — Enjoy Them As They Ripen

With this Peach tree in your garden, you can enjoy Peaches for two months instead of only a week or two. It will not be necessary to plant a variety of kinds, just one "Summer Long" Peach tree for fruit all summer. Trees are very hardy and require no more care than other varieties.

Popular PEACH TREES

REDSKIN. 522. New Red Color! A recent introduction that is hardy, productive, large, beautiful and delicious. Cross of J. H. Hale and Elberta. Beautiful red, round, firm fruits; excellent keeping quality. Ripens with Elberta. Bears young and heavily.

J. H. HALE. 516. The Extra Large Peach. Bright yellow fruit blushed with red; nearly fuzzless. Always sells at top prices. Golden yellow flesh, richly flavored, fine textured. Semi-fertile; plant a good pollinizer every third row.

See Page 53 for Peach Tree Prices →

MICHIGAN'S FAMOUS

"HAVEN"

PEACH VARIETIES

SUN HAVEN — Best Early Peach

527. Sun Haven, like Rich Haven, was developed to meet the need of growers for ever-better varieties maturing in succession throughout the peach season. It is one of the best extra-early Peaches — matures 10 days earlier than Red Haven, 40 days before Elberta. The fruits are large, round, uniform in shape. Color is bright red with enough golden yellow ground color for attractive contrast. Flesh is clear yellow, firm, fine-textured and resistant to browning; has delicious flavor. Freestone, when fully ripe. Good keeping quality. Sun Haven is highly recommended as an extra early, top quality Peach.

RICH HAVEN — Ripens Midseason

523. Attractive large, round fruits. Color is golden yellow with bright red blush. Ripens 15 days before Elberta. Considered one of the best for commercial canning. Flesh is clear yellow with moderate amount of red near the pit; medium in texture and resistant to browning. Entirely freestone even when firm ripe. Delicious flavor. Attractive appearance and excellent shipping and handling ability should prove Rich Haven a big money-maker for commercial growers. Home gardeners will also enjoy this outstanding variety.

FAIR HAVEN — Honey Sweet

508. Like Sun Haven and Rich Haven, this outstanding variety was developed by Stanley Johnston, Director of the South Haven, Michigan Experiment Station. It is a cross between J. H. Hale and South Haven — combines the best qualities of both parents. Fruits are medium large, bright golden yellow with bright red cheek. Ripens August 10th to 20th. Trees are extremely hardy and heavy bearing; always produce a full crop in spite of cold or foggy blossoming season. Ships exceptionally well. Freestone.

KING SIZE PEACH TREES

Large, 6-7 ft. trees. You save several years by planting these King Size Trees. Varieties: Hale Haven, Fair Haven, Elberta, Sun Haven.

EACH \$3.00

2 for \$5.75

HALE HAVEN — Fine Shipper and Canner

514. A large beautifully colored, yellow-fleshed Peach. Has delicious sweet flavor. Ripens approximately 15 days ahead of Elberta. Perfect freestone. Keeps exceptionally well even when shipped long distances. Considered one of the finest shipping and canning peaches grown. Trees are very hardy, heavy bearers.

RED HAVEN — Extra Early

520. A flaming scarlet Peach that ripens extra early and is very hardy. Originating in Michigan, Red Haven will be colored up with gorgeous all-over red and ready to pick and ship while the fruit is still firm and easy to handle. Firm textured, sweet, golden flesh; wonderful dessert Peach and good for freezing, too. Ripens 10 days ahead of regular Hale Haven, 30 days before Elberta. Trees bear very young and heavily. Self-pollenizing. Very hardy. Freestone. Excellent shipping and market variety; tops in every way.

ELBERTA — Great Commercial Peach

506. Universally known as the outstanding money-maker wherever Peaches are grown. Oval in shape with deep golden skin blushed carmine-red. Flesh is golden, fine-grained, firm textured. Unquestionably the leading Peach for home and commercial use. Freestone. Self-pollenizing. Young bearing. Enormous yield at maturity.

O'BOY — Huge, Delicious

518. The largest, most richly flavored, beautifully round and uniform Peach ever grown. Skin is glowing orange blushed with carmine-red. Inside there is a sunburst of bright red from the pit out into the sweet golden flesh. Ripens with Elberta. Freestone. An excellent canner and shipper. Hardy. Semi-fertile; plant a pollinizer every third row. (Propagation rights reserved.)

North Star Cherries

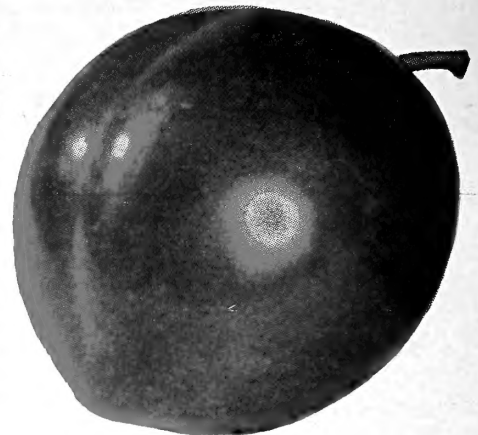

Dwarf Fruit Trees

NORTH STAR Dwarf CHERRY

632. A superior new Dwarf Cherry, originated by the University of Minnesota. Extremely hardy; will succeed farther north than any other Cherry of equal size and quality. Trees grow only 5 to 7 feet tall making them easy to maintain — easy to pick the fruit. Bear enormous crops of large, mahogany-red cherries. Fruit ripens early. Has small pit, easily removed; tender skin; flesh juicy and meaty. Excellent for pies and sauce.

The trees are very ornamental, from early spring blossom stage, through fruiting period to late fall foliage. Ideal for backyard planting as well as orchards. Trees are self-fertile; small but highly productive and dependable. Young-bearing; usually start to bear second year after planting.

	Each	2	4
3-4 ft. trees.....	\$2.95	\$5.50	\$10.50

Eureka

Dwarf PLUMS

We are pleased to offer two new varieties of Dwarf Plum which we believe are worthy of a trial this spring. The trees are ideal for home planting and orchards. Require little space; seldom grow more than 5 to 7 feet tall but bear as heavily as larger trees. Very hardy, vigorous growing and young-bearing. Plant 2 or more trees for best results. We offer the following varieties.

DWARF EUREKA. 647. Thin-skinned fruits, very juicy and delicious, with a distinctive flavor. Freestone. Excellent for eating fresh, sauce and canning.

DWARF STANLEY. 645. Sweetest of all Plums or Prunes. Beautiful dark blue fruit; golden flesh, delicious and juicy. Young-bearing, heavy yielding variety.

Dwarf BEACH PLUM

630. An amazing new ornamental that is valued for its decorative qualities equally as much as for its abundant crops of delicious fruit. Grows only 10 feet tall. Tree is absolutely hardy, very productive and grows vigorously in even poorest soils. Fruit is deep blue, sweet and rich flavored; has small pit; makes delicious jam and jelly. A beautiful tree for the lawn with its white flowers, colorful fruits and glossy green foliage. Can also be planted in borders among other trees and shrubs.

Dwarf APRICOTS

Emlong's new strain of Dwarf Apricots enables you to grow this delicious, healthful fruit in even the smallest yard. Require only a third the space of regular trees and seldom grow more than 7 feet tall. Trees are extremely hardy, vigorous and productive. Excellent for home gardens and orchard planting. Very attractive trees with dark green glossy foliage and beautiful blossoms. We offer the following varieties:

DWARF APRICOT, MOORPARK. 649. Large, orange-yellow fruit. Sweet, juicy, wonderful flavor. Delicious fresh, canned or dried.

DWARF APRICOT, MANCHU. 650. Beautiful orange colored fruits with smooth, fuzzless skin. Delicious, sweet flavor for pies and jam.

OKA Dwarf CHERRY

628. Larger than Cherries, fruit is dark purplish-red all the way through and very delicious. This hardy, Hybrid Cherry Plum bears a full crop even in the coldest climates where Cherries do not thrive. Very hardy, early bearing and of prolific Dwarf habit. Showy blossoms followed by full crop of fruit. The trees themselves are shapely with good foliage, flowers and fruit, attractive enough to plant anywhere. A beautiful and ornamental tree to plant in garden or border, preferably near Plum trees. Fruit is about 1 inch in diameter, very sweet and very delicious for eating fresh, and for jams and jellies. Fruit ripens late July or early August. Plant two trees for best results. Bears quickly.

SAPA Dwarf PLUM

626. Tree is of dwarf habit but a rapid grower. Often starts to bear the year after planting. Trees are very ornamental in early spring when the branches are covered with shimmering white blossoms followed by an abundance of fruit. Fruit is red-fleshed, medium-sized; deliciously sweet and juicy. Small freestone. Fruit is firm, good for canning, pies and shipping. Enormous cropper even in the coldest climates. Hardy in all sections. Plant two trees for best results. A perfect tree for beauty and fruit. Enjoy these luscious plums now! — right from your own trees even though you have only an ordinary sized yard.

DWARF APPLE TREES

Dwarf Apple Trees are in great demand by the grower with limited space. The small trees grow about 8 to 12 feet tall at maturity and do not spread more than 10 to 12 feet. Although the trees are dwarf in size, they will bear the same size fruit as the standard trees. They often start bearing the second year after planting. Mouth-watering fruit is produced in abundance and is easily picked. A dwarf apple tree is a beautiful addition to your landscape as an ornamental tree. Enjoy this easy-to-pick fruit in your own yard without delay. Plant several trees of different ripening dates to give you a succession of apples all season. **Plant with bud union 2 to 3 inches above surface of the ground.** Limited supply. Order now.

Varieties available:

Solid RED DELICIOUS. 614. Truly King of all red winter apples.
Bright RED JONATHAN. 616. A big favorite for both cooking and eating.
RED McINTOSH. 620. The best red fall apple. Juicy, fine for sauce or fresh fruit.
YELLOW DELICIOUS. 618. The finest yellow fall apple.
New FENTON RED. 613. The ideal extra-early red apple.

DWARF PEAR TREES

Trees bear full-sized, delicious fruit, the same as standard varieties. **Often start to bear the year after planting.** Always produce a full crop of large sized fruit. Ideal for the home garden and growers with limited space. Trees are very ornamental in spring with their abundance of creamy white fragrant blossoms. Plant as close as 5 feet apart. These sturdy dwarfs seldom grow more than 6 to 10 feet tall and are loaded to the ground with fruit. Easy to pick — throw away your ladders, stand on the ground and pick bushels of Pears. Trees are hardy, thrifty and heavy bearers:

Varieties available:

BARTLETT. 604. The favorite summer Pear.
CLAPP'S FAVORITE. 606. Large pale yellow with red blush. Early summer.
DUCHESS. 608. Giant size. Tender, juicy. Early fall.

2-3 ft. trees.....	2.50	4.75	10.75	19.50

DWARF PEACH TREES

We are now able to offer Dwarf Peach Trees producing full size delicious peaches, often larger than those produced on full size trees. These trees are grown on special root stock with an ultimate height of 6 feet. The fruit can be picked from the ground — no ladders needed. The tree is easy to care for, requires little space and will bear fruit for many years. It is a heavy producer, providing an ample supply of fruit for the average family, for every home use. Even though you have only an ordinary size backyard, you can now enjoy luscious, fresh peaches picked from your own trees. These trees are very ornamental and make a beautiful addition to any yard — from their spring blossoming stage through summer and fall as the colorful fruits ripen.

Varieties:

SUN HAVEN. 622. Best of the early.
RED HAVEN. 625. All over red color.
FAIRHAVEN. 621. Honey sweet; delicious.
RICH HAVEN. 627. New, finest midseason.
ELBERTA. 623. Favorite late variety.
HALE HAVEN. 624. Large, midseason.

Colorful-Showy MAGNOLIAS

MAGNOLIA SOULANGEANA. 1272. The most popular hardy Magnolia. Delightful, fragrant blossoms appear very early in spring. Blooms measure 8 inches across and are very striking with their petals of purple-pink on the outside and white inside. Dwarf growing. Has gorgeous, shiny green foliage.

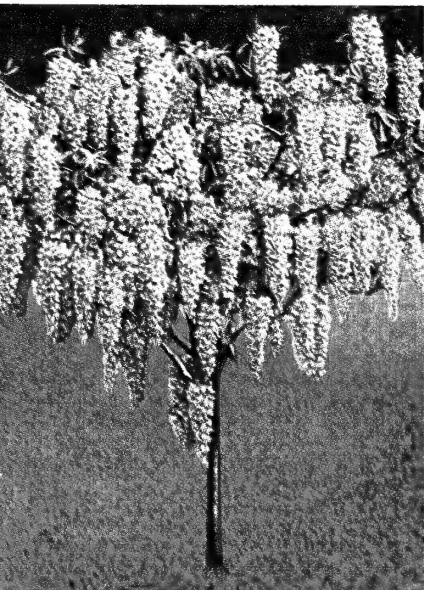

MAGNOLIA NIGRA. 1270. Large, Lily-like flowers of dark purplish-red and attractive, rich waxy green foliage. One of the first trees to bloom in spring. Trees grow 12 to 15 feet tall. Blooms are long lasting. **Available in 2 to 3 ft. size only.**

	Each	2
3-4 ft. branched.....	\$5.50	\$9.95
2-3 ft. branched.....	4.45	8.45

"Crimson King" RED MAPLE

(Plant Pat. No. 735) **1208.** Truly the best Red Maple grown. In the spring the foliage is a rich deep purple-red which is carried through the entire season. Unquestionably, Crimson King is a superb tree for single specimens, for tree lawns, along driveways, and every landscape purpose. A sport of the well-known Norway Maple; has similar habits of growth. Very hardy; will live for generations. The trees we send are one-year tops and three-year roots. They start branching the first season. **Prices:**

TREE WISTERIA

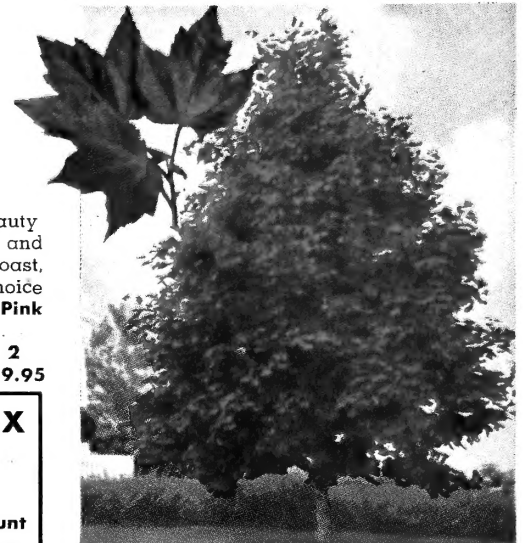

Increases in Beauty Year after Year

No lovelier sight can be imagined than Tree Wisteria in full bloom. Bears great profusion of large racemes of charming pea-shaped flowers somewhat resembling a bunch of grapes in size and form. Flowers are produced by the hundreds and completely cover the tree during May. In bloom, the tree is a thing of sheer beauty. On the lawn, the tree develops into a beautiful specimen, and lives for generations. Easy to grow from coast to coast, except in very coldest states. Mature height 6 to 8 feet. Choice of colors: **1292, Purple** (the most popular color); **1290 Pink** (very rare and unusually beautiful).

FLOWERING DOGWOOD

A Vision of Loveliness in All Seasons

New "CHEROKEE CHIEF"

Sensational Red Flowering Dogwood!

1265. Outstanding for its beauty and earliness of bloom. Lovely rose-red blossoms cover the tree in early spring, followed by attractive dark green foliage which changes to gorgeous shades of red in the fall. Bears clusters of bright red fruit in September and October. This variety makes a beautiful lawn specimen, and is equally effective in border planting. A combination of red with white flowering makes a lovely grouping. Grows 8 to 10 feet tall.

Prices:	Each	2	4
2-3 ft. trees.....	\$4.50	\$8.75	\$16.95
1 1/2-2 ft. trees.....	3.50	6.75	12.95

WHITE FLOWERING DOGWOOD

1268. Cornus Florida. Hundreds of large, creamy-white flowers cover the tree in early spring before the leaves appear. In fall the foliage changes to rich red tones, and scarlet fruits further enhance the beauty of the tree. Grows 8 to 10 feet tall. Has a delicate-appearing, lacy effect and is perfectly charming for the lawn or shrub border.

Prices:	Each	2	4
3 to 4 ft. trees.....	\$2.75	\$4.75	\$8.75
2 to 3 ft. trees.....	2.25	3.75	6.75

PINK FLOWERING DOGWOOD

1266. Cornus Florida Rubra. This charming, spring flowering tree possesses a large measure of attractiveness throughout the entire year. A tree in full bloom is a magnificent sight. Showy pink flowers appear in early spring, followed by rich, dark green foliage which changes to gorgeous red tones in the fall. Grows 8 to 10 feet tall. Makes an artistic lawn specimen or a colorful accent anywhere on the home grounds; in shrub border or among other trees, and along driveways. Does equally well in sun or shade.
